50¢

1 charged in double homicide

By STEVE O'LEARY
ANP Staff Writer

Romulus detectives have arrested a 29-year-old Taylor man and arraigned him on two counts each of murder in the first degree and felony firearm in the April 6 shooting on California Street which left two men dead.

Robert Williams, 29, was arraigned April 12 in Romulus 34th District Court Judge Henry Zaborowski. A plea of not guilty was entered on his behalf.

On April 6, Romulus police answered an abandoned vehicle call and were directed to a black Volvo parked on California. In the front seat was the body of Van Hooper, 24, and in the back seat the body of David C. Stanley, 28, both Taylor residents. Both had been shot repeatedly through the head, police said.

A small amount of suspected cocaine was found in the car which was one of the reasons police first suspected the double killings to be drug related. Now, according to Romulus Det. Sgt. David Early, "the motive appears to have been revenge, resulting from previous criminal prosecutions against one of the suspects."

Police that "other suspects are being sought, but there have been no arrest warrants issued yet."

Williams was arrested at his home April 10 by Early and Romulus Police Officer Michael Ondejko.

Early reports that in a confession taped and videotaped by Romulus Police and included in the warrant request, Williams allegedly "contends that yes, he did drive the getaway vehicle and witnessed the shootings, but had no active part other than that. He says he did not aim a gun or pull a trigger," Early said.

While police are continuing their investigation, Williams is being held without bond at county jail. According to reports, Williams was released last May after serving an eight year sentence for assault with attempt to rob and breaking and entering.

Early contends that the arrest resulted from a number of anonymous tips and "many lengthy follow-ups." He added that Romulus Police hope to have at least one other suspect in custody soon. "He knows who he is and is in hiding," a Romulus officer said.

A date of May 6 has been set for Williams' preliminary examination in 34th District Court.

Cycle safety

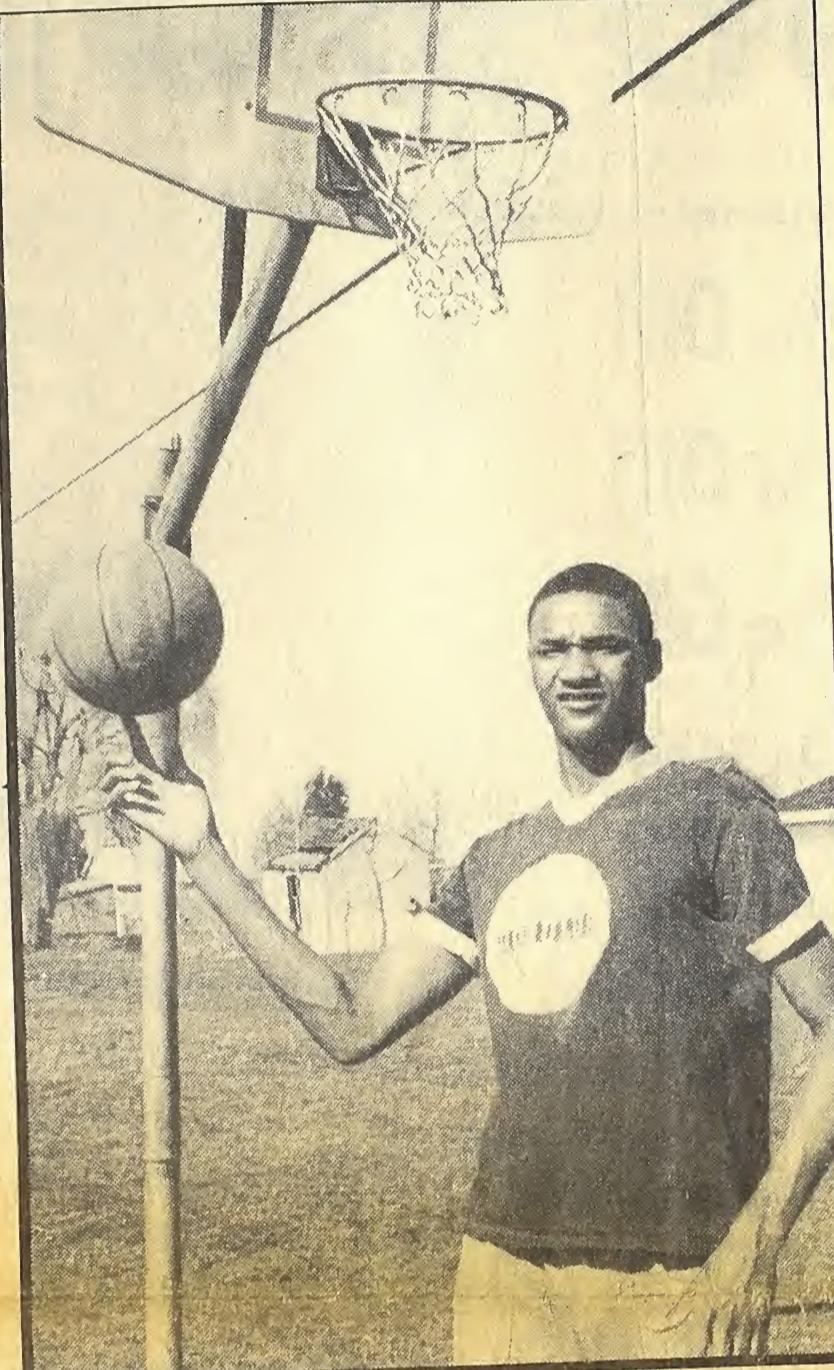

A 1985 Motorcycle Safety Program will be offered at Huron School through the Community Education Program.

The course will be at least 20 hours long, consisting of at least eight hours of classroom instruction and 12 hours on a motorcycle. This is a complete riding course, covering how to mount a motorcycle right up to control a rear wheel skid.

The cost of the course is \$25 with class size being limited to 25 students and the first 25 with their money in are considered the registered students.

Two courses are being offered with times as follows: Monday, Tuesday, Wednesday from 5:30-9:30 p.m. May 6-May 22, Thursday and Friday from 6 to 11 p.m., and Saturday from 8 a.m. to 8 p.m. May 9-18.

For more information call 728-1505.

'Blue chipper'

Few high school basketball players around the country have gotten the acclaim that Romulus' Terry Mills has. Only a junior this year, Mills has been named to many all-America teams, including first-string on the Parade Magazine All-American team. The Romulus Roman salutes on of the city's brightest stars, Terry Mills!

5 and counting Commodities program helps feed needy

During these hard financial times, there are many avenues of help open to the residents of Romulus, one of the best being the Surplus Commodity Program, which has been in operation in the city for approximately five years.

Originally strictly a cheese giveaway program run by Wayne-Metro Services Agency,

the American Progressive Association (APA), a non-profit group based in Romulus at 35351 Beverly, later became involved and now assists in a broad range of programs and activities.

Besides the cheese, produce now given to needy families often includes butter, flour, milk and canned goods. Transportation services for these products is donated by the Romulus Department of Public

Works (DPW). According to Denise Norris of Wayne-Metro Services, they don't know the exact date food will be available until the 15th of each month, when they get notification.

According to T.J. Coleman, president of the APA, "we are now distributing on a larger scale than ever before, and since the Romulus Senior Center discontinued its service, this is the only program (dis-

buting food in Romulus)."

Designed to meet the needs of the needy, the APA and the Wayne-Metro Service both insist that people making use of the program provide documentation of income (need) and residency.

The APA is also currently making use of another program of emergency services called FEMA Food, which began in March. The Federal Emergency Management Agency offers food boxes to those in need up to once per week, rather than on a monthly basis.

"We are now distributing on a larger scale than ever before . . ."

-T. J. Coleman

According to Coleman, "we issue between 80 and 100 boxes of FEMA Food a week." Federal Guidelines stipulate that to be eligible, one's income may not exceed \$6,225 a year.

Combined, the programs serve approximately 14,400 families in Romulus a year.

"We (the APA) are presently using a punch-card system," says Coleman, "having people show their identification card to expedite services. We have as many as 15 volunteers working with us at any one time."

The location of the food giveaway is the Wayne-Metro offices, located at 35408 Beverly Road in Romulus.

Anyone wishing more information on either of the projects should call either 721-4470 or 728-7510.

the accident scene itself, thanks to the implementation of an advanced life support systems at the medical facility.

Dr. Ernest Sorini, head of emergency services at the hospital, compares the system to the birth of a 12-pound baby... "it took a long time coming" . . . but with the system ambulance service paramedics in communication with the hospital by radio and telephone can now administer life-saving treatment in the field, increasing the chances of a patient surviving.

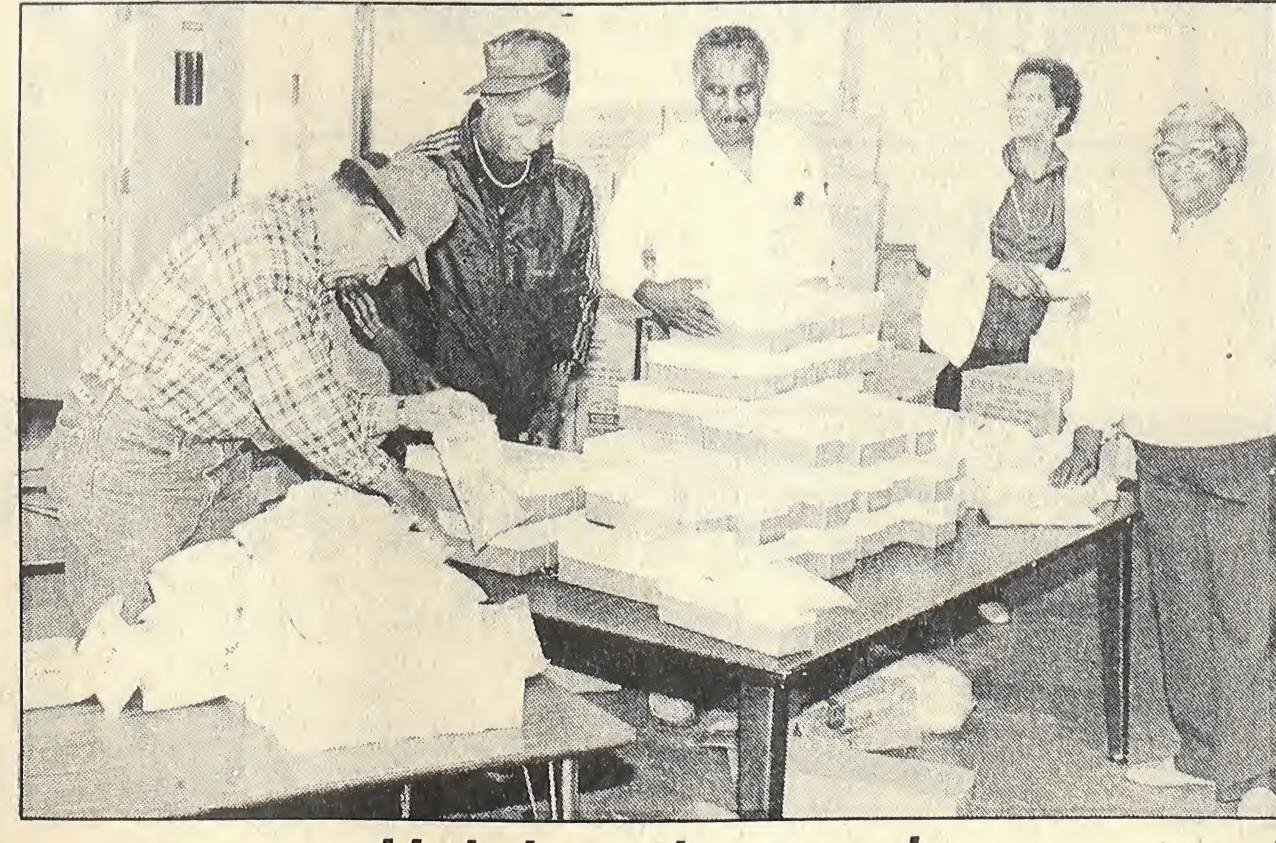

"They're physician extenders," Sorini said of the program. "They take the same equipment into the field that we have in the emergency room."

The hospital works through an agreement with ambulance services and the communities they serve: Two such services, Taylor and Community, have the licensing for providing trained paramedics in their ambulances and service communities in Western Wayne County.

There are set protocols that the paramedics must follow in working with patients in the field and they care a drug box, filled with the same sort of drugs that would be used in emergency room treatment. There are some things that the paramedics can take from the drug box before contacting the hospital, which fall within the protocols; others require direction from the emergency room physician. The hospital replenishes the box after each use and seals it, so the paramedics know that it has not been tampered with or missing a particular drug they need.

The paramedics also come to the hospital once a month for seminars, so, according to Sorini, the hospital personnel know the paramedics and that they will be getting accurate information over the communications system.

The paramedics also are presented with different cases to discuss, much like the doctor's rounds that medical students make. If they need training See ALS Page A-6

Helping the needy

Volunteers of Wayne-Metro Services work in conjunction with members of Romulus' American Progressive Association to handle food giveaways to needy families in Romulus. Pictured here are volunteer workers Richard Price (from left) Clara Williams, Stefon Wooden, Watson Harris, Marie Butler (chairperson of food program), and Liz Johnson.

Other side of Meridian**Futile battle**

by TOM MOORADIAN

Representatives of the Department of Natural Resources and Wayne County came to town last week, raised residents blood pressure a few degrees and left in a hurry before the tar and feather crowd got to them.

As predicted here a few weeks ago, all the DNR managed to accomplish during a public hearing on a proposed landfill in Sumpter Township was to anger and raise the ire of the local populace.

Some 50 of them packed the township hall and told state and county representatives what they could do with the DerStephanian application for a landfill which will be located on 10 acres of land east of West Carleton at 39965 Judd Road.

After the two or more hours of heated dialogue, the residents learned that the representatives will convey their thoughts to Lansing but that the landfill will be created in the nearest future.

How do the residents feel? Here's just one of 10 letters that I received on the subject:

Dear Mr. Mooradian,

We, the people of Sumpter Township are so tired of having dumpsites shoved down our throat. I wish something could be done about it, however, when it comes to listening to the will of the people, those elected officials in Lansing apparently don't hear us. I have written a letter to Dr. Ron Skoog, of the Department of Natural Resources, and am wondering if you will publish it."

No problem.

Mr. Skoog,

Last night the people of Sumpter Township had to protest, once again, for the dump site you want to put on Judd Road in Sumpter Township. It seems we have to go through with this once a year. We are tired of it. We already have two dumps which are toxic and unsafe.

All of us in Sumpter Township moved to the country to have a nice area to live in, not to live by a dump. Why is it that Sumpter Township is always picked to have the dumps? We are human, have families, and out homes, just like everyone else.

Our water level is so high in Sumpter Township, (it used to be swamp area), that any toxic material would flow right through the ground. All the roads, ditches and land are always flooded. The ground is so wet, it's like walking on a sponge.

Maybe we are just little people, not rich, but we live here, pay taxes and we should have a say so on what goes on in our community. Just more dumps. It's a disgrace.

I cannot understand why this can go right past our Township Board without approval. I vote to put the dumpsite in Grosse Pointe.

In summary, I and the other citizens of Sumpter Township believe that locating an additional dumpsite in our township is not only wrong but unjust.

We not only request, but expect a thorough investigation of the situations as to the reasons why Sumpter was selected as opposed to an alternative location.

**Nancy Skelly
Sumpter Township**

Although the departure of Frank Pascarella caused a wave of speculation in these parts because of the unclear circumstances that led to his resignation as Belleville City Manager, one must give the City Council an "A" in public relations for its quick and decisiveness in luring former mayor and councilman, Justin Emerson, out of retirement and into his old seat at city hall.

Emerson is not only a "father-grandfather" image kind of man, but he also is a hard-working, no nonsense person who believes that when there is a job at hand there will be no procrastination - the job will be done."

Ironically, Emerson, who will be celebrating his 74 birthday on July 27, would like nothing more than to see council hire a qualified man "as soon as possible." He made that his top priority. "I am not a workaholic," he said. "But I will gladly accept this position until council finds a qualified person to come in here and do the job."

I personally hope that Belleville City Council will become inflicted with that age-old malaise called "dragging its feet."

Here's one person who votes to keep Emerson in the city manager's chair until Main Street returns to its former glory.

"Our Town" is compiled and edited by the Belleville Enterprise editor, Tom Mooradian. Those wishing to submit articles for consideration for this column should mail the information to the newspaper at 116 Fourth Street, Belleville, Michigan in care of Mr. Mooradian. Those wishing to call may telephone 697-9191.

Romulus: 'war on blight'

In preparation for its Sesquicentennial Year, Romulus Mayor Beverly McAnally and officials of the Romulus Ordinance Department have declared a war on blight and on owners of inoperable vehicles.

"We are encouraging all residents to take pride in their city and community and one first step is to clean up debris," said Mayor McAnally. "The City Council is also cooperating by opening the city dumpster at no charge during the months of May, June and July."

The dumpster is located at the Public Works Department, 34100 Goddard and is open Monday through Friday from 7:30 p.m. until 4:30 p.m. The storage of inoperable motor vehicles for more than 48 hours is a violation of city ordinances and is punishable by up to \$500 in fines and/or 90 days in jail.

Unkempt premises are also a violation of city ordinances and carries penalties, according to ordinance director Tom Ellis who can be reached at 941-0666, extension 246, to answer any questions residents may have about ordinances.

Medal awarded

Spec. 4 David C. Portalatin, son of Jose A. and Betty C. Portalatin of Cornell Ave., Columbus, Ga., has been decorated with the U.S. Army Commendation Medal at Fort Bragg, N.C.

The Army Commendation Medal is awarded to those individuals who demonstrate outstanding achievement or meritorious service in the performance of their duties on behalf of the army.

Portalatin is a vehicle driver with the 82nd Airborne Division.

His wife, Tina, is the daughter of Joseph Fritz of 41635 Van Buren, Belleville, and Marie Fritz of Garden City. He is a 1981 graduate of Spencer High School, Columbus.

BHS qualifies for state science olympiad

A team of 15 students from Belleville High School placed second at the Wayne County Regional Science Olympiad and qualified for the Michigan Science Olympiad which will be conducted April 27 at Michigan State University in East Lansing.

The surviving 20 teams will be among the 100 teams from all parts of the state who will compete in 24 events such as rocketry, bridge

Olympiad was staged at the University of Michigan-Dearborn campus on March 30. Forty-four teams participated in the local competition.

The surviving 20 teams will be among the 100 teams from all parts of the state who will compete in 24 events such as rocketry, bridge

building, anatomy, and science bowl. Each team will consist of 15 students. State nominees then will compete in the National Science Olympiad Tournament on May 17-18 at Michigan State University.

The Science Olympiad is an academic interscholastic competition which is designed to increase

student interest in science and improve the quality of science education.

The tournament consists of a series of approximately 20 individuals and team events.

Students prepare for the competition during the school year. The competitions follow

the format of popular board games, TV shows and Olympic games. They involve

the various sciences such as biology, earth science, chemistry, physics, computers and technology.

The team under

the direction of

Christine Diehl,

a teacher at the high

school, includes

Frank Bronkowski,

Rob Ferrett,

John Gladhill,

Cheron Hayes,

Robert Henderson,

Stefan Jonheimer,

Gary

Kenski, April Marcum, Chris Montgomery, Chad Mullins, Laura Norris, Tim Parker, Faith Paroski, Renne Reiner, and Ari Sharaker.

Awards went to Tim Parker, first place for "Name that Organism"; John Gladhill and Robert Henderson, second place - "Titration Race"; Renee Renier, first place - "Metric estimation."

The Science Olympiad is not a science fair. It is, however, competition with the emphasis on having fun with the knowledge of science.

**Unsightly**

Inoperable vehicles parked along roadsides and driveways will be the target of a massive clean-up proposed by Romulus Mayor Beverly McAnally who warns residents that they should clean-up their acts or face possible fines and jail sentences for violation of city ordinances.

Stoyenoff nets academic honors

Jennifer Lynn Stoyenoff, the valedictorian of the 1984 graduating class at Belleville High School, is the recipient of the William J. Branstrom Freshman Prize for Academic Excellence.

The award is presented by the University of Michigan.

In recognition of Miss Stoyenoff's perfect 4.0 scholastic average, she received an encyclopedia engraved with her name and was also honored at a convocation held at the fieldhouse of U of M Dearborn campus and also at Hill Auditorium in Ann Arbor.

Jennifer, who is majoring in environmental sciences, is the daughter of Fred and Norma Stoyenoff of Belleville.

Jennifer Lynn Stoyenoff

Lions to seek donations

The Belleville Lions Club members, joined by Lions across the state of Michigan, will be manning the streets at their favorite corners in quest of donations.

"The funds we raise go for a host of noteworthy projects," said Amos Johnson, who serves

as the local chairman for the fund-drive during what has become known as White Cane Week.

"Our clubs have raised millions of dollars for humanitarian projects.

"And we know that our local citizens will come through again as

they have in the past," Johnson added.

The miniature White Cane, given to

donors, is worn by

thousands of people

during White Cane

Week and demon-

strates a visible

acceptance of the

program, Johnson

stressed.

The funds are used

for such projects as

helping senior citizens, hearing and speech action and work with the deaf.

The donations also go for glaucoma detection, leader dog school for the blind, diabetic screening clinics, eye examination and glasses.

The Lions' funds

also are utilized for welcome home for the blind programs; Michigan eye banks, braille services for

the blind, mobile vision screening units, finance surgery and hospital care for

worthy persons as

well as recreation and social services for the vision impaired.

Our Town

Here's what's happening in "Our Town" this week:

Free food offered

Federal surplus food will be distributed to eligible Van Buren Township and the City of Belleville residents beginning at 11:30 a.m., Tues. April 30 at the Van Buren Township Hall, 46425 Tyler Road.

All residents who qualify under the low-income standards established by the federal government are welcomed to receive the food. Those residents who do not have verification of income, may do so at the township Supervisor's Office on April 30.

Kindergarten round-up

Parents of pre-kindergarten children who will be 5-years-old on or before Dec. 1, 1985 and who reside within the boundaries of the Van Buren School District, are urged to register their children during pre-kindergarten round-up days. Children can be registered at their local elementary school.

School health services representatives will provide information on necessary immunization. State law prohibits non-immunized children from attending school. The child's birth certificate or other legal proof of age; immunization records, verified by a physician, and records providing dates of any communicable diseases will be needed.

Contact the Board of Education offices at 697-9123 for further information. A prepared sheet listing dates and times of registration is also available at the board offices.

Tree sale

The Belleville Fire Department will conduct its semi-annual tree sale beginning at 9 a.m., April 26-27 at the fire station located at 25 Second Street.

The firefighters are offering Colorado spruce trees at \$1 apiece or six for \$5. One dozen trees is being offered for \$10. The proceeds from the tree sales will be used for fire department equipment.

"These trees are in excellent condition and were purchased through a nursery," said Belleville Fire Chief Tony Talaga. Those needing further

information should telephone 697-9323.

September Days

September Days will hold its annual "Rumage & Bake Sale" from 10 a.m. until 7 p.m., May 31 at the Center. Donations of usable articles or baked good will be appreciated. For those wishing to sell their own treasures, tables are available at \$5. For further information telephone 699-8918 or 699-8919.

The seniors also can catch up on what is new in prescription drugs when the Blue Cross-Blue Shield holds a "Brown Bag Prescription Program" meeting at 12:30 p.m., May 28. Seniors are urged to bring their medication in a brown bag and discuss their medication with a pharmacist.

And on May 11, beginning at noon, September Days seniors will host an "Open House" at the Center located in Quirk School. Director Connie Brinkerhoff says "that everyone is invited to our new home".

"We would really like to show off this new facility," said Mrs. Brinkerhoff. We have accomplished much and have a lot of plans for the further."

Gymnastics, anyone?

The Romulus Recreation Department is offering summer gymnastics classes Thursday afternoons at North Junior High School. There is a \$15 registration fee for participants.

Classes will be conducted from noon to 1 p.m. for beginners, 1 to 2 p.m. for advanced beginners; 2 to 3 p.m. for intermediate students.

The 8-week session will begin June 20 and will run until August 15. For further information, please contact the Recreation Department at 941-0666, extension 254.

Fundraiser

The Romulus Athletic Club will stage its spring fund-raising dance at 8 p.m., Sat., April 27 at the VFW Hall, 39270 Huron River Drive. The RAC supports little league football in the city. All proceeds will be donated to support the program and purchase equipment.

The \$5 donation will include beer, set-ups and dancing to the music of D.J., Tom Vernatt.

Dateline Romulus

Thursday, April 25

The Democratic Club will meet at 7:30 p.m. at the City League Hall, 11495 Wahrman. For further information please call 942-0754.

The Kiwanis meets every week at 6:30 p.m. at St. Aloysius Church in the school basement, 37200 Neville. Anyone desiring additional information may call 942-0420.

Sunday, April 28

The VFW Post 9568 meets today at 12:30 p.m., 39270 Huron River Drive. Please call 941-9866 if additional information is required.

Tuesday, April 30

page 4-a

Westland needs library

On Saturday residents of the City of Westland will go to the polls to decide whether or not the city should have its own public library or continue to share facilities with its neighboring communities.

The city is seeking approval of a charter amendment, which would permit the levying of one mill for the construction and operation of a library in the community and continue to finance usage of the Wayne-Westland Library in Wayne and libraries in Garden City and Livonia by its residents.

Taxes are not a popular issue these days, but in this case, the request is one Westlanders should consider very seriously. Westland has a population in excess of 84,000 and is the only city in the state with such a large population not to have its own library.

When the city joined with Wayne in forming the Wayne-Westland Public Library its population was small in comparison to today's. The facility was able to meet the needs of residents of both cities, but as Westland grew, it became necessary to buy services from the Livonia and Garden City libraries.

The city has budgeted \$171,000 for library services this year, but in comparison to neighboring Canton Township with a population in excess of 48,000, that amount is a mere pittance.

The one-mill request is earmarked solely

for library services. It would finance the construction of what organizers for a positive vote on the amendment foresee as a state-of-the-art library facility, its staffing and operation. The facility they believe will be a "jewel" for the community and a source of pride.

It would also be used to continue to purchase services from Livonia and Garden City and Westland's continued involvement in the Wayne-Westland facility.

It also would guarantee that if the city would fall on hard times, library services would not be cut to balance the budget. That was the case in 1983, when the city slashed its contribution for those services. It was out of that decision that the push for a library millage began.

It has been said that today's society has become a television society, choosing to watch the TV rather than read books. However, the bruhaha over that 1983 budget cut proved that there are people in Westland who read and who desire library services.

We encourage the residents of Westland to vote yes Saturday. The cost-estimated at 39 cents (or one candy bar) per week—is minimal in comparison to what it will bring to residents. The services that will be generated through that tax will make the investment well worthwhile. After all, the mind is a terrible thing to waste.

DAVID J. WILLETT
PUBLISHER

The Global village

No doubt most of you have heard the term that refers to the manner in which the world's people have become a part of one global community or village. So it is that because of satellite technology and television, we know instantly the details of events taking place as they happen on another continent or on the opposite side of the globe.

As we watched the nightly news reports from Viet Nam, saw the battle scenes from fighting in Lebanon, or listened to casualty reports, we all felt touched, moved, fearful and angry. Television coverage of the Americans held hostage in Iran, the Olympics in Moscow, Presidential travels...each media blitz of a particular moment in history made us feel a part of the event as it happened. As Walter Cronkite used to say, "...and you are there." We came to feel that each was important to us personally, and we wanted to know what was transpiring, NOW!

On another front, we see enormous changes in industry and the manufacturing of such products as the automobile. We now recognize that autos have become a global market item. The Japanese continue to bring that point home to us with painful clarity.

It is most interesting that we have become so attuned to "world" and "national" news events and markets. We might look at this while we recognize that at the same time many are out of touch almost entirely with the world immediately surrounding them. Masses of people move to the suburbs to dwell in new subdivisions, condominiums and apartments, many in virtual isolation from their surroundings. It all seems strange. We have moved from a society where we knew most about our community because news of such was most readily available. From Lewis and Clark to Lindburgh, we always had a thirst

for news of the "world," but we lived and dealt with those matters and people in close proximity to our homes and families.

Today, a frighteningly high percentage of those among us have become preoccupied with the news of the "big picture." Perhaps it is that we have become "global voyeurs" letting family, friends and community become relegated to a position of little or no importance. Many of us seem to overdose on "USA Today," "Nightly News," "Detroit News," "Detroit Free Press," "Wall Street Journal," and "Time" magazine. The family next door could be experiencing a major crisis, local schools and government might be poorly run and in chaos, a brother might be approaching chronic alcoholism, but we remain enthralled with the news of the "global scene."

It would seem that as a result of the great communication revolution, many have become communicating eunuchs. People can put a satellite dish in their back yard, but they don't talk to their next door neighbors. It's easy to pick up a phone twice a year or so (Easter and Christmas, usually) and talk to a parent. "How ya doin'? Well, good talkin' to ya..." but they don't have the time to write a letter. People sit next to strangers, seemingly emotionally unable to strike up a conversation. We insulate ourselves from those things and people that might have a real effect or impact on our lives. More importantly, we look past and ignore those matters in which we have a real chance of having an impact.

We revel in the news provided us by "People" magazine, "The Star," or "The National Enquirer" of the personal details of the lives and escapades of movie and television stars, but do we know the first names of the people across the street or

Shame in Sumpter

To the Editor:

What in the world is happening here in our small country communities?

I read of mishandling of funds, embezzlement charges and arguments of black and white in Sumpter Township. I read of a public hearing notice to Sumpter residents on an application for a new solid waste landfill on Judd Rd. and Carleton-West Rd.

While writer Tom Mooradian tells us in his article that this meeting is "Wasting citizens time." "Wasting tax-payers money and time and stirring up the emotions of the residents..." "When the Wayne County has already approved it . . ." "therefore no matter what is said or done on April 15, that landfill will be constructed."

Also, I read of Supervisor Hoffman and ex-Supervisor Reeves (the black and white of my immediate community) arguing over who is to blame for missing papers, funds, etc. I hear of "too many black votes, not enough white votes."

Before our recent election I was given a card with names hand-written on it telling me whom to write in on my ballot so as to, "get the black people out," I was told. I resent this action.

It disturbs me to wonder and worry about who is going to pay those medical bills for all those ailments the "non-existing" toxic waste chemicals will or have caused. Detroit-Wayne Co. fathers don't care about our water supply, or our crops that die, or our wildlife out here--it seems they only care about where they are going to bury their filth out here.

It also provokes me to wonder about who is going to protect those Senior Citizens who "trusted someone" enough to give them their tax monies. Who is going to take them in when their homes are sold out from under them because of some insensitive lover of fifty lucre?

Corruption, lies, graft, pre-

judice, sexual harassment, embezzlement, police cover-ups. What happened to honesty, integrity, truth, brotherly love. Are they only empty words? Where is this leading--another Sodom and Gomorrah? (Holy Bible; Genesis 18:20 and 19:24). What next?

We are putting Sumpter, Huron and Van Buren Townships in the map alright! Shamefully.

Nancy Slomers-Drouillard
Sumpter Twp.

Library support

To the Editor:

On Saturday, April 27th, the people of Westland will have the opportunity to solve their library problem once and for all. Approval of a one-mill tax increase, to be used exclusively for libraries, will provide the needed revenue for existing library services and provide the financial base for construction of a new library. We wholeheartedly support this millage request and are confident that Westland citizens who demand better library services will be compelled to support this permanent solution to what has been a chronic problem.

We commend our city officials for their concerted efforts to maintain financial support for the Wayne-Westland library on Sims Road as well as Westland's contribution for the operating budgets of libraries in neighboring communities which our residents use. During the recent times of a troubled economy, library budget decisions were especially difficult. The support and commitment of not only our local officials, but the strong interest and active participation by citizens in our community have demonstrated that fostering the growth of knowledge is essential to the enrichment of community life.

The millage election on April 27th allows us, as concerned citizens, to take decisive action to guarantee our future library services. Revenue-sharing money to local municipalities

has been targeted for reduction as Congress attempts to address the federal budget deficit. As a consequence, we can no longer strictly rely on these financial resources to help maintain vital municipal services.

No doubt, any cut in revenue-sharing money could place library services in jeopardy. Therefore, passage of this millage, which will earmark money for the purpose of supporting libraries, is essential. It will allow us the opportunity to meet our community's library needs, including initial planning for the construction of a new library. Westland deserves a first-class library, like so many of our neighboring communities now have.

There is a saying in the library community that, "Libraries will get you through times of no money better than money will get through times of no librarians." We certainly believe this to be true and urge all people in Westland to support the millage increase on April 27, 1985.

WILLIAM FAUST,
State Senator
JUSTINE BARNS
State Representative

Thanks, volunteers

To the Editor:

Somewhere in your town young girls are meeting once a week in a Girl Scout troop. These girls are having valuable experiences as they learn about themselves and their world, to make responsible, informed decisions and to give service to others.

These experiences are only possible because an adult volunteer is willing to spend time with these girls. Girl Scout leaders are required to take specialized training before they can lead a troop and they give many, many hours of their free time to provide a quality program to your daughters.

The week of April 22-28 has been designated National Volunteer Week and on April 24, 1985, over 800 leaders from Michigan Metro Girl Scout Council will be sent to dinner by the girls in their troops. On this special Leader Day these leaders will receive the special appreciation they so richly deserve.

The Michigan Metro Girl Scout Council, the community and the girls they lead want to say a hearty "Thank You" to Girl Scout leaders! Because of them, all of our lives are enriched.

MARY M. LAW
President of Michigan
Metro Girl Scout Council

Smoke-free effort

To the Editor:

Two legislators, Sen. Jack Faxon and Rep. Justine Barns, have announced a strong new effort to provide smoke-free areas in public places. They have been joined by 28 co-sponsors.

Among them is Rep. James Kosteva from this community. Our thanks to him for being concerned about nonsmoking citizens who are harmed by inhaling cigarette smoke from

other people's cigarette in the workplace, in stores, in schools, and in other indoor areas.

More and more scientific studies have concluded that smokers endanger not only their own health but also those of the people around them. And now public opinion in Michigan favors restricting smoking in public places.

Results of a recent poll indicate that 82.6 percent of Michigan citizens favor a state law to limit smoking to designated smoking areas in public places. 68.5 percent said they would strongly favor such a law. The legislation even has the support of the majority of current smokers, with 73.6 percent generally

favoring it and 56.2 percent strongly favoring it.

In other states who have a clean indoor air law, there are smokers who say they appreciated it because it helped them cut back on the habit or even stop. Employees appreciated it because it helped them establish smoking policies for the workplace. Businesses can write to the American Lung Association of Michigan for sample policies.

Again, we applaud Rep. Kosteva for knowing that the time to protect the public health is now, not later.

PETER M. PELLERITO
President,
American Lung Association

Demanding sport

To the Editor:

I wish to express my appreciation for the article in the Belleville Enterprise detailing the Belleville Tiger swimmers.

As you know, swimming is a demanding sport requiring dedication and hard work by the individual with little extrinsic reward or public recognition. Thanks to Tom Mooradian for giving our young athletes well deserved acknowledgment that will aid in their inspiration and motivation.

No strippers

To the Editor:

After reading the letters regarding strippers at Town and

Country Lanes, I was compelled to write about incidents at Lodge Lanes in Belleville.

One Thursday night in February during the early league I heard this noise behind me at 7:30 p.m. It was somebody's birthday and a stripper, belly dancer, whatever, appeared. There were several children in the house, one was approximately three years old and was not three feet from the stripper.

I took exception to this and called the township to see if there was an ordinance that applied. Supervisor (Lynn) Hamilton was concerned and said there was no ordinance; he said he would ask Chief Keller to call managers at Lodge Lanes and ask them to take the strippers to the lounge part of the bowling alley.

Bowling is a family sport. My grandchildren, ages six and four, love to watch their papa bowl.

Two weeks later, guess what? Yep, another stripper, only this time a solicitor was asking for a dollar to pay the stripper.

When the stripper left, I sought the manager and talked to him (his name was Bob according to his shirt). All he wanted to do was argue.

Another bowler brought to my attention that some weeks ago a male stripper came in for a birthday at approximately 10 p.m. on a women's league.

I just don't think one should be subject to this in a family bowling alley. If you like it, why not in the privacy of your home, or just where it's happening?

I wonder if Lodge Lanes received the Newsletter Bulletin that was issued by the bowling proprietor's association. I also wonder if Chief Keller did in fact call Lodge Lanes.

I commend Joe Jaskolski for his letter (published in The Associated Newspapers) on the subject. I like the way he manages Town and Country Lanes. I like a manager that can manage.

ROSE WERSTEIN,
Belleville

flying solo

how many children they have?

Our global village is becoming inhabited by global voyeurs. We literally live somewhere in the "ozone" because we don't seem to be able to cope with the real world all around us. Perhaps its time we reacquaint ourselves with our communities, neighborhoods, friends and families. Perhaps we should spend our think-time solving problems and dealing with people and situations which we can touch physi-

cally and emotionally, and which, in return, can touch us. To be informed about the world we live in is wise, to be preoccupied with it at the expense of being informed about events and issues that affect our daily existence is foolhardy.

There's an old saying, "Know the difference between what you can change and what you can not." Perhaps it should go on to urge us to help change for the better whatever we can.

See you next week.

Placement education needed

Sen. William Faust (D) of Westland has urged education officials to include information on community placement of physically and mentally handicapped persons in textbooks and educational materials.

Faust made the appeal through a senate concurrent resolution, one of three he said he will make in a direct appeal to book publishers and local school boards to include community placement and mainstreaming concepts in curriculum. His resolutions have been

referred to the senate education committee for consideration.

"I support community placement for persons with developmental disabilities, mental and emotional illness," Faust said. "However, the development of small group homes in neighborhoods often arouses controversy. But history reveals, that upon implementation, controversy gives way to neighbor acceptance."

Supt. of Public Instruction

Phillip Runkel said, "There is no question that a lack of information on the part of the local community and a fear of the unknown contributes greatly to the initial opposition in placing these small group homes. Certainly, with a comprehensive program a great deal of the controversy and concerns could be allayed."

Faust and his staff members have been working with the department of mental health in developing material to be used in advance of public meetings on the development of small group homes.

ROSE WERSTEIN,
Belleville

Looking for a job?

Are you a 17- to 21-year-old who would like to learn how to get and keep a job?

Are you presently seeking employment?

If so, there may be help available to you. Growth Works, Inc., a non-profit agency located in Plymouth, is now enrolling participants for their Employment Dynamics program. The program activities include job search, skill training, on-the-job training, and job placement assistance.

The Employment Dynamics program is in the midst of another good year. The agency has operated youth employment programs for seven years and has been highly successful, particularly in the areas of permanent job placement and retention.

According to Paul Chamberlain, program director, there are several innovations in the 1985 program which will help to continue that success.

We've been able to link with many employers in the area who are expanding their work forces and who find Growth Works' program participants to be excellent job candidates."

Growth Works receives funding for the Employment

Dynamics program through the Job Training Partnership Act of the Federal Department of Labor. Because of this funding, there are some federal guidelines which applicants must meet in order to qualify for the program. Eligibility is limited to 17- to 21-year-old residents of Plymouth, Canton, Northville, Livonia, Wayne, Westland, Garden City and Inkster. In addition, participants must meet economic guidelines. Families

who are receiving unemployment benefits, disability payments, or receive limited income from working, and youth who provide some or all of their own support, generally meet the federal income requirements.

Young people interested in more information about the Employment Dynamics program should call Growth Works at 455-4093 from 9 a.m. to 5 p.m., Monday through Friday, and ask for Lissa Spitz.

Doctor 'on call' at accident

Continued from Page A-1
they come to the emergency room.

"Part of the reason we give the classes is to get them comfortable with us," Sorini explained, "so they can see we work together as a team and not as adversaries."

"The project medical director can dismiss a paramedic if he feels he endangered the patient. There's no fooling around. You won't find any mavericks out there."

The service is different than what is provided through fire department rescue services in many communities, because such a service is a costly endeavor. It requires further training by the emergency

medical technicians, as well as certification of the radio system, which has a \$10,000 price tag alone, and a check of every piece of equipment.

"The training programs are very costly and there a large number of course required for the state certification, not to mention the state licensing examination," Sorini noted.

In the few months the program has been in effect, it has accomplished the goal set for it...saving lives.

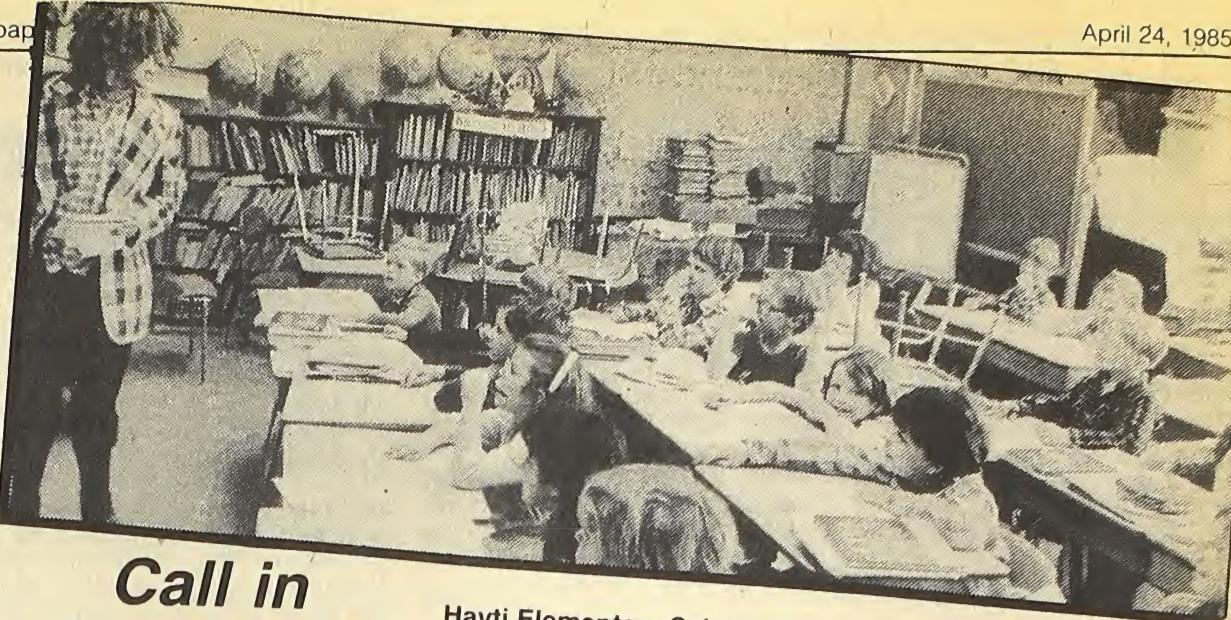

Sorini pointed to the case of a 72-year-old man who was struck by a heart attack. The paramedics were able to administer life-saving medication and began treatment within four minutes of the attack. The

man went into a coma and awoke three to four days later "just fine."

"We've worked out a very equitable system, so that the concern is the training, because of the extension of the physician and the hospital into the field."

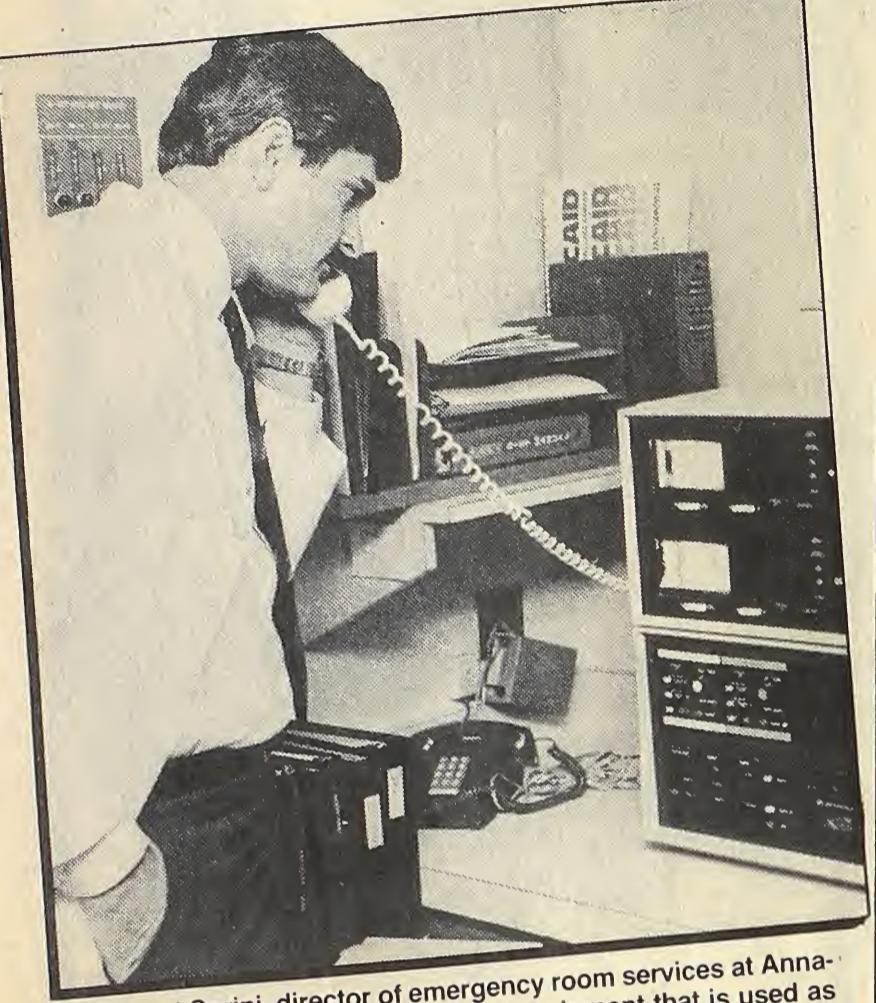

"There's a lot of safeguards built in for the public."

The system also is tested every shift to detect any problems that might prevent the paramedics from reaching the emergency room.

Call in the clowns

Hayti Elementary School called in the clowns. Clown Tommy Spaghetti did a spelling lesson for a captivated second grade class, while his sidekick, Meatballs, looked on. The children, very much, Spaghetti and Meatballs enjoyed the lesson. Student body at Hayti on March 26. Intermingling dance and heard throughout the building. Spaghetti explained to the students the importance of when to clown around and when not good manners, by sprinkling it with creative humor.

Dr. Ernest Sorini, director of emergency room services at Ann Arbor Hospital in Wayne, checks out equipment that is used as part of the newly instituted advanced life support program at the facility. The program, which utilizes ambulances equipped with certified paramedics, to extend the physician and hospital into the field to help patients.

'Play ball'

Kennedy jolts Cherry Hill

By TOM MOORADIAN
ANP Staff Writer

Perfect baseball weather. That's what baseball coaches in the area wanted, and they got it.

The 1985 high school baseball season got off to an excellent start, especially for Westland John Glenn which is riding a 4-game winning streak. However, some coaches would have preferred rain-outs.

"We can't blame the weather for our losses," said Coach Dennis Stoh, who is entering his ninth season as Romulus' mentor. "It's just like Florida out there. If we can win more than we lose, I guess I can't complain."

Stoh was satisfied with his team's double efforts against out-of-league rival, Cherry Hill. Romulus swept both ends of a twin bill, beating the Spartans 12-1 in the opener then coming back for a 10-2 victory in the nightcap to build their over-all record to 5-3-2 on the season. The two ties attached to their record were due to games called because of darkness.

"I've got a good group of kids to work with this season," said Stoh. "I really believe this team can improve upon last year's record if our No.1 and No.2 hitters come around."

"Right now we have some problems at the plate," he added.

The Eagles launched the 1985 season with a narrow 5-4 defeat

at the hands of Willow Run's Flyers, then they swept a pair from Cherry Hill and turned back Ypsilanti Lincoln, 1-0. The second game was called because of darkness in the fifth with the score tied at 2-all.

The Eagles also split with Dundee, losing 6-5 in the opener then coming back in the nightcap to shut out their rivals, 10-0 behind righthander Dave Blevins' 4-hitter. Blevins struck out five and walked five in a game that also was cut short because of the darkness.

Bobbie Sloane led the assault for the day as he hammered two homers and drove in four runs in a 5 of 7 day at the plate. And Steve Thornsberry, a good-looking outfielder, stroked a pair of singles and triple.

Romulus returns to action today at 3:30 when the Eagles travel to Belleville for a doubleheader with Coach Tom Fielder's Tigers. The first game is scheduled for 3:30 p.m.

In the meantime, Cherry Hill dropped a 5-2 decision to Tri-River Conference rival, Taylor Kennedy, Monday. The Spartans struck first with a run in the top of the opening inning, but Kennedy came back to tie it in that inning, then scored twice in the second and sealed it with a pair of runs in the third.

Kennedy collected four unearned runs on us," said Coach Ken Mientkiewicz. "And that killed us. You can't fault the

pitching for this one. Our defense just didn't stand up to the pressure."

Mark Bayliss went the distance for the Spartans as he notched five strikeouts and gave up five hits.

The loss dipped Cherry Hill's record to 2-2 in the league; they are 4-4 over-all.

The Spartans scored in the top of the opening inning to take a shortlead lead as Rob Bryer singled and raced to third on Bayliss's first of two doubles. Bryer scored when John Gould connected for a single.

After Kennedy tied it up in its first and went ahead 3-1 and 5-1 in the next two innings, Cherry Hill put its last run of the game on the scoreboard in the fifth as Bayliss drove in Mike Thibeault, who had singled to get aboard and moved to second on a sacrifice.

Entering his ninth season as head coach, Mientkiewicz is optimistic about his team's chances. "I believe we will have a lot to say who is going to win the title this year. It's unfortunate that we lost one of our key players to an injury."

On the Spartan disable list is veteran Paul Oster who broke his wrist diving for a fly ball. He made the catch, but will sit out most of the season nursing the injury.

The Spartans have posted victories over league rivals, Melvindale (7-6) and Dearborn Heights Riverside(10-4) and earlier lost a 3-2 decision to Allen Park.

Glenn undefeated

Continued from Page 1-C
enough to stop the rampaging Westlanders.

Glen collected four runs in the first inning when Cass Simpson was hit by a pitch, Jensen singled, and Barber tripped home those two runners. With one out, Brad Martin deposited a Keeney pitch over the right centerfield fence and the Rockets were never headed in the 18-7 victory.

Barber started on the hill for the Rockets and dominated the Tiger hitters. He fanned five of the first seven hitters and eight of the first 10 batters. He ended up with 12 Ks for the day, and for good measure, helped his own cause with a home run, the first of his varsity career.

"It was the best Barber has looked all year. We need him in the rotation," said Hoenes.

In the second game, Belleville caught Glenn napping as the Tigers exploded for four runs in the first inning, on singles by Utt, Barnett, an error and a two-run homer by Oddy.

But the Rockets pecked away at Dennis Montie. In the first, they got a triple from Simpson and an RBI singe from Mike Oaks. Finally, the Rockets broke through for six runs in

the third inning. A single by catcher Shawn Wilson - he had four hits in the doubleheader - scored one run and the Tigers helped the Rockets along with four walks, two of them with the bases loaded.

Hammontree knocked in two runs with a single and has taken the lead in RBIs with seven.

By this time, starting pitcher Jason McKarge had been replaced by Oaks on the mound, and despite giving up an unearned run in the fifth, the 5-11 righthander handcuffed the Tigers on no hits the rest of the way.

Oaks fanned six batters and gave Hoenes still another arm for his pitching arsenal.

"You bring in a guy and he strikes out six, holds them to no hits, and walks just one. Now that's great pitching. He shut them down. He's done a great job pitching and also has down a good job at third base as well as with the bat," Hoenes said.

Now it's on to Livonia Franklin (Tuesday), Edsel Ford on Wednesday at home, and at Redford Union (Friday) as the Rocket title express revs up its title-bound engines.

Spartans coast

Continued from Page 1-C
the one to beat for the one and the two mile runs. Brown was first in the 220 (29.7); second in the 100-yard dash (13.1) and contributed toward the victories in both the 440-yard and 880-yard relays.

Cherry Hill will join a host of area teams including Plymouth Salem and Canton, Dearborn Heights Crestwood, Livonia Franklin, Garden City,

Highland Park, Romulus, Southgate Anderson, Walled Lake Western and Willow Run for the annual Belleville Relays.

The relays will be staged beginning at 10 a.m. on Saturday.

"We expect some of the toughest competition around to gather for the Belleville meet," said Shough. "Highland Park will be there and they won it a year ago. I would have to say they are the favorites."

Challenging a hurdle

Some of the finest high school track & field talent will assemble Saturday at Belleville High for the annual Tiger Relays. Belleville, the defending champ, finds its title in jeopardy as a strong Highland Park may run off with the championship.

Flat Rock Speedway begins racing season on May 11

Flat Rock Speedway will open a 23-event schedule, highlighted by two appearances by the ARCA Talladega Supercar Series, with ARCA-sanctioned late model, figure-8 and street stock racing Saturday night, May 11.

The late models, figure-8s and street stocks will be in action every Saturday night throughout the summer as Flat Rock commences its 32nd consecutive season of auto racing at the Telegraph Road 1/4 mile asphalt oval. The ARCA Talladega Series features 200 mph, full-bodied superspeedway stock cars and drivers who compete annually at Daytona, Talladega, Atlanta and the short tracks of mid-west.

The 22nd annual Flat Rock ARCA 100, sponsored by Monroe Beverage's Miller High Life Brand, will run June 15 and the Talladega Series will return for the 11th annual Ho-

ward Williams Memorial July 13.

Among other special Saturday night events are Auto Racing Fan Club Night, May 18; Autograph Night, May 25; a Media Race with Detroit Tiger pitcher Milt Wilcox on WSDS Night, June 1; Youth Sports Night, June 8; the 4th annual Michigan Oval Grand Prix, June 22; a fireworks display by Volcano Fireworks of Carleton on July 6; All Florists Night, August 3; Scout Family Night, August 17, and Season Championships, August 24 and 31.

Additional racing events include the Michigan Challenge Cup, a three-race series for late models, May 27, July 27 and September 7; two Junkyard Enduros, 250-lap races for demolition derby-type cars, on June 9 and July 21; and the 6th annual Street Stock Nationals, September 14.

The speedway will also see action as the site of several ral-

lies for the Ford Thunderbird Go-Kart Club and a bi-weekly flea market on Wednesdays and Sundays.

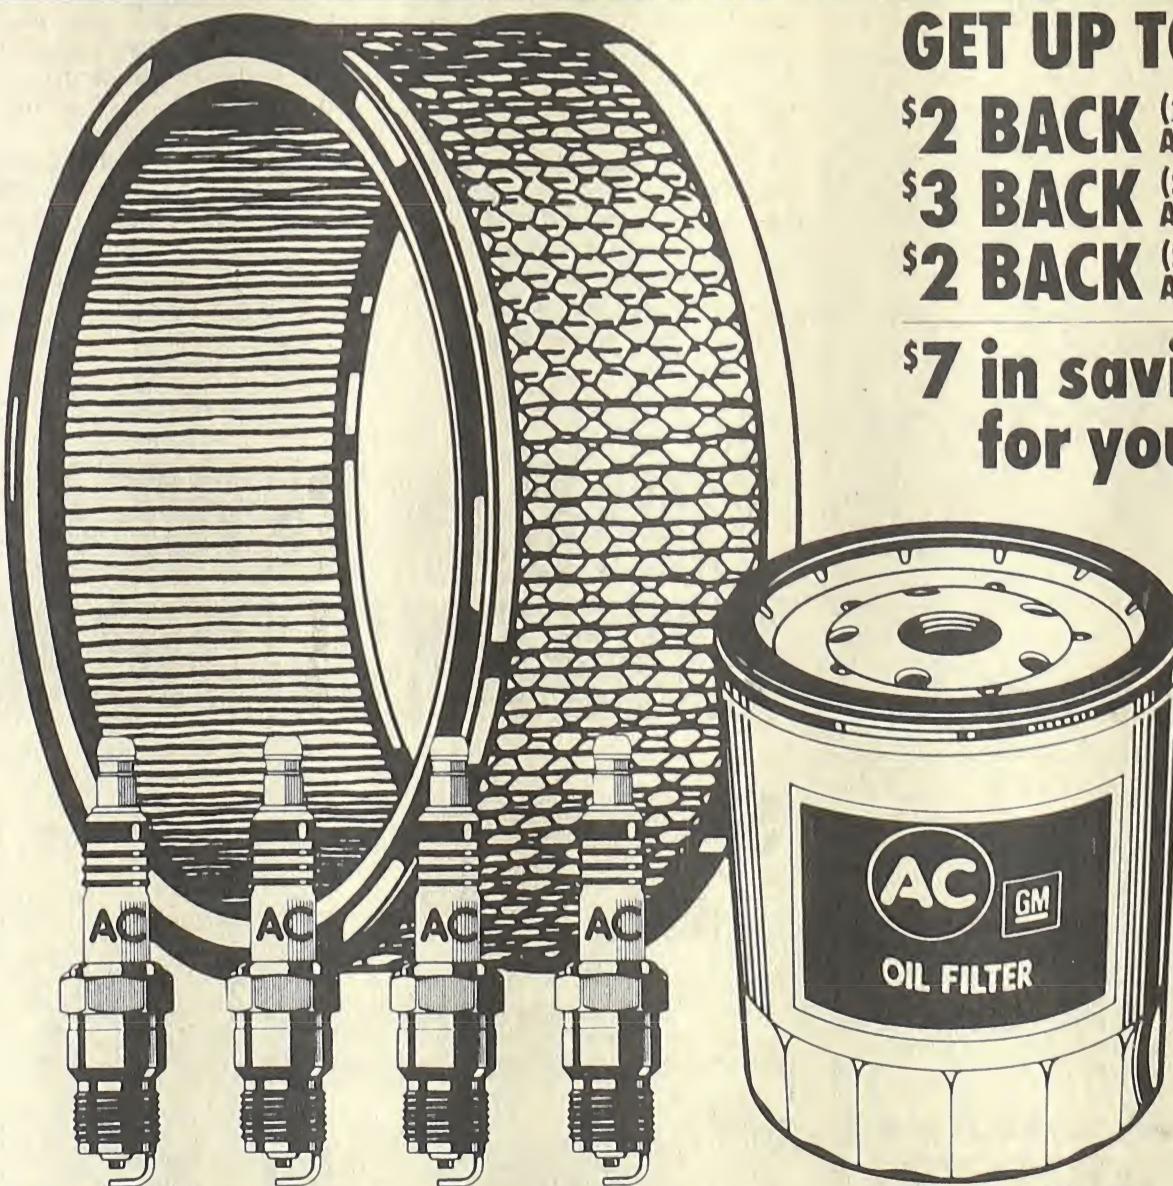

Weekly stock car racing at Flat Rock Speedway is run under the sanction of ARCA, the Automobile Racing Club of America, and the Speedway is operated by John Marcum Promotions, both since 1964.

Rockets win

The John Glenn girls' softball team pulled out a dramatic 3-2 victory in nine innings Friday over North Farmington as Barb Barballas came through with the tie-breaking triple to settle the issue.

Bob Lynn

Wayne running like a track champ

Lynn's Zebras are undefeated

Wayne Memorial looks like and runs like the next Wolverine "A" Conference Track & Field champ.

Coach Robert Lynn, entering his fourth year as coach - his third as head coach - has compiled a 4-0 record after shooting down Westland John Glenn's Rockets on Monday in a cross-town rivalry match.

Wayne dominated the meet as the Zebras swept 13 out-of-a

possible 15 events en route to a relatively easy 81-56 victory over Coach Ernie Righetti's runners. The Zebras also have destroyed league rivals, Fordson, 94-45, and Lincoln Park, 112-27, for their league accomplishments.

"We don't have the numbers that we have had in the past," Lynn said. "But we do have a lot of determined and devoted athletes who are willing to

make the sacrifice. That's what makes this team click."

Lynn predicted that his thinclads would be in the running for the conference championship, however, the meet with Belleville, the defending conference champ, "would be crucial."

"Belleville lost to Monroe in their league opener," said Lynn, "and that means we have to be extra cautious. We

can't afford to have a letdown with Belleville because each dual meet counts toward the championship.

"Belleville has its back up against the wall, and they can get some breathing room if they can beat us. If they do, we're in trouble because we still have to meet Monroe."

Wayne received an exceptional over-all performance from its senior, Lorenzo

Flukes, who won two events outright and contributed in the victories of the 880-yard and 440-yard relays.

Flukes was clocked in 22.2 for the 220-yard dash and he posted a 10.9 in winning the 100-yard dash. He joined Darren Tatum, Jeff Wadley and Al Allen to capture a first in the 880 with a time of 1:41.6. Then Flukes, Michael Jackson, Allen and Tatum came up with the winning time of 45.3 for the 440.

Tatum, Brett Thuring, Jeff Wadley and Brian Nolen made up the line-up for the winning mile relay which was clocked in 3:34.5. Tatum also was second in the 100-yard dash.

Thuring crossed the finish line first for the 880-yard run, running a 2-minute flat for his victory, while Jackson's leap of 19 feet, 11 inches won the long jump competition.

Ron Tolson, whose brother, Rick, claimed All-American recognition as a distance runner, apparently is following in his brother's footsteps. Ron covered the mile in winning fashion with a 4:25 and also claimed the victory in the 2-mile run with a 9:57.

Softballers needed

Attention Class B and Class C caliber softball teams in the area. Teams are needed for a pre-season softball tournament which will be staged on Saturday and Sunday, April 27 and 28 at the Anderson Fields in Wayne.

There is a \$100 entry fee due. The tournament is sponsored by the Gorilla Engine/Petro Softball, Inc., Wayne.

For further information, please telephone 728-1054 or 729-1250 after 6 p.m.

Belleville hosts Tiger Relays

By TOM MOORADIAN
ANP Staff Writer

Some of the finest high school track and field talent in the state will gather at Belleville High School in Saturday for the annual Tiger Relays.

"We have 12 of the finest prep teams around including Highland Park and Willow Run coming here for these relays," noted Dave Medley, Belleville

coach. "These relays have developed into the best of its kind."

Competition will begin at 10 a.m.

The field also will include Ferndale, Cherry Hill, Plymouth Salem, Plymouth Canton, Garden City, Southgate, Wyandotte and Romulus.

The program will include relays in the 4-mile, 440, 880, mile, 2-mile, distance medley, shut-

tle hurdle as well as the field events.

Belleville enters the meet with a 1-1 record, excluding the results of the Wayne Memorial meet whom the Tigers were to host on Thursday. Belleville dropped a 74-63 decision to league rival, Monroe, while defeating out-of-conference rival, Edsel Ford, 97-37.

"We are a pretty solid

team," Medley offered, "and I sincerely believe that we have better individual personnel this year than in previous years. However, there are some glaring holes in our lineup."

Medley pointed out that the field for the 1985 Tiger Relays "will also include some very quick teams, and that fans won't go away disappointed."

"You usually don't want your

athletes peaking early in the season because you want to get them ready for the league and regional championships. But, since the league counts dual meets toward the championship, you also can't afford to lose many duals and hope to win the title.

Belleville girls' tracksters are winless in their first two starts this season.

Spartans prepare for 'end of an era'

Tri-River champs seek 16 straight track title

By TOM MOORADIAN
ANP Staff Writer

For the past 15 years Cherry Hill has won the Tri-River Conference Track & Field Championship.

And, this season should be no different.

With only two years left before the school district is abolished and is merged with the Wayne-Westland schools, head coach Dick Gordon would like to hold on to the title as the era ends.

"We're a small team," Gor-

don said, "therefore, there are a lot of doubts and speculations. But we could possibly hang on to the title again if everything falls into place."

Gordon's Spartans buried Allen Park 86-50 in their conference opener last Thursday. "But, we have a lot of holes in our line-up and they must be patched if we are going to continue to win."

Entering his seventh season as head coach, Gordon hated to see the demise of the school district, "but I believe our athletes will have little difficul-

ty finding a spot on the teams at Wayne and John Glenn."

The Spartans rolled up 12 first places against the downriver school with Eric Truss leading the way. Truss chalked up a triple victory as he captured a first place in the long jump with a leap of 21 feet, 1 inch. He also ran a 41.9 for the 330-low hurdles and was a member of the winning mile relay team.

That mile relay line-up also consisted of Brian Hendricks, Wayne Stephens, and Quinn Lawrence who posted a 3:48.

Cherry Hill also received a superlative effort out of junior Mike Brown who is ranked among the top sprinters in the state this season. Brown was clocked in the winning time of 10.3 for the 100-yard dash, posted a 23.8 in winning the 220, then anchored the winning 440-yard relay for his third win of the afternoon.

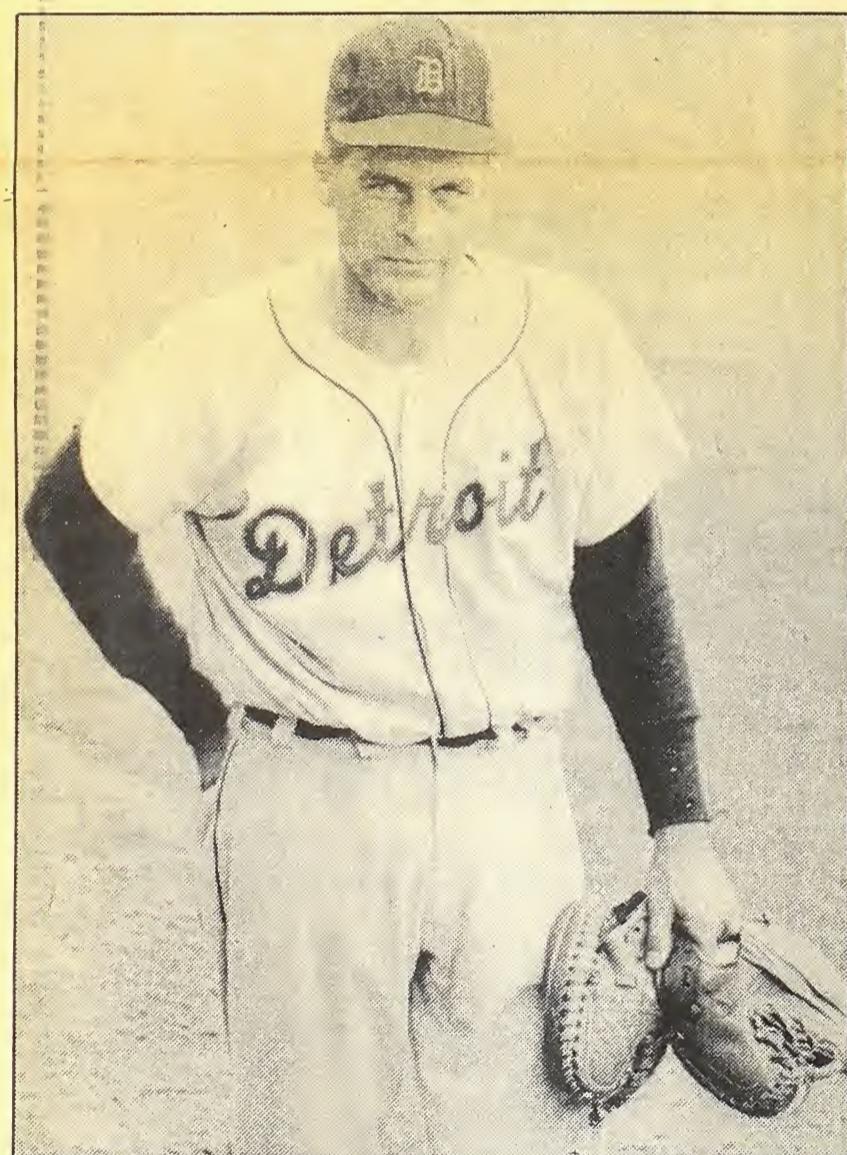

In the 440, the Spartans also featured the talents of Don Watson, Curtis Adams, Zarik Duran who were clocked in 48.0. Brown also was the anchorman for the winning 880-

yard relay. There were no line-up changes for that one.

Lawrence, David Yao, Stephens and Bubba Zirker were clocked in 9:34 - good enough to win the 2-mile relay.

Cherry Hill launched the season by taking a 77-56 victory from non-conference rival, Gabriel Richard.

The Spartans will be at home Thursday night, playing host to always tough Melvindale. "I expect a close meet," said Gordon. "Melvindale always comes ready to compete against us."

open for business

by jim ahrenberg

See you next week!
 (Jim Ahrenberg is an advertising consultant for Associated Newspapers. Contribu-

tors to "Open For Business" include Valerie Higgins, Denise Kralowski, Sharon Cook and Joan Hines.)

Welcome back, Morris Goldberg! Morris is the primary developer and current patient of the new **Med City Medical and Dental Clinic** in the Oak Plaza (between Arby's and Wendy's) on North Wayne Road in Westland. Last January, Morris had a terrible slip and fall on ice and severely broke his hip. This week his doctors have given him the green light to carry on with some light administrative duties. Hang in there, buddy. When the going gets tough, the tough get going!

Also, in the Oak Plaza, **Movieland** of Westland is getting ready to make waves in the video rental world. Keep an eye open down the road.

Atchinson Ford Sales of Belleville has added two new members to their sales team. . . Janice (Buckberry) Towler and Terry Walter. Janice, formerly a resident of the Belleville/Romulus area, and her husband, Tom, have three daughters and currently reside in the Ypsilanti area. Terry Walter, a former race car driver and member of the National Hot Rod Association, and his wife, Mary Ann, have two children. As new members of the team, Janice and Terry will do their darndest to get you a nice price on your next new car. Welcome aboard!

The two greatest fears of most Americans are : speaking before large groups of people and going to the dentist. **Dr. K. Sata, D.D.S.** in Romulus wants to change part of that. Their motto is, "We cater to cowards" and I'm glad. They also cater to the unemployed and low-income families. For eligibility information call their office at 942-0560. Dr. Sata's dental office is located at 10000 South Wayne Road in Romulus. They are participants on the Tri-County Dental Health Council Volunteer Dentist Program in Wayne County.

Anyone looking for music instructor **Pat Feight** after the tragic fire in Wayne demolished her music store can find her at **Garrett Glass**. I hear music lessons are on schedule.

This week's **Rotten Egg Award** should go to the little old lady at the Cherry Hill and Inkster Road Kroger Store. Seems she didn't want to pay for the whole asparagus stalk and proceeded to break off all the stems before weigh-in. Her folly also left quite a mess in the produce department. People like her cause us all to pay more for our groceries.

Speaking of rotten eggs . . . You won't have to worry about rotten eggs or spoiled meat at the **Canton Center Food Market**. George carries nothing but the best and freshest since he opened earlier this month. If the weather is nice this weekend, why not plan a barbecue. George will be featuring some fabulous T-bone steaks.

What a guy . . . and what a pizza . . . at **Papa Tony's** in Canton. For every Papa Tony pizza sold, owner Larry makes a donation to the Canton Parks and Recreation Department. The pizza must be good. Larry has been pouring out checks for weeks.

Deering
recognized

The Henry R. Deering Agency, Inc. in Belleville has been recognized as a \$1 million agency by Citizens Insurance Company of America.

The agency placed more than \$1 million in insurance premiums with Citizens during 1984, including automobile and homeowners' policies, commercial business insurance and workers' compensation. Deering has represented Citizens since 1932.

Based in Howell, Citizens is the largest writer of automobile insurance in Michigan and has more than 570 independent agents.

Kurpieski completes course

Connie Kurpieski, owner of the Dairy Queen outlet in Inkster, recently completed a two-week management training course at the Minneapolis-based International Dairy Queen.

Kurpieski and 24 other store operators from the United States and Canada were instructed on all facets of the Dairy Queen business. Subjects included product preparation, sanitation procedures,

employee management and financial management.

Kurpieski is one of more than 4,600 owners and managers who have graduated from the Dairy Queen training center since its inception in 1968.

NO LOSE INVESTMENT

American citizens from all walks of life including Bankers, Lawyers, Doctors, Stockbrokers, Collectors and Investors are searching frantically for what is considered by experts the world over to be a No Lose Investment. Once thought to be plentiful 50 years ago investors are now scrambling to get their hands on the nearly impossible to find Gem United States Government Silver Dollars. Well-known brokers such as Salomon Brothers have published reports stating that for the last 10 years, rare coins have outperformed all other investments, tangible as well as financial. Silver dollars alone have had an annual appreciation rate of 26.4% despite fluctuations in the price of silver! It is a proven fact that smart investors, for the last 10 years, have been secretly hoarding these coins. They are sitting on a silver mine which they will sell and already have at least 1000% overall appreciation! This is just the "Tip of the Iceberg" in terms of what is to come, for example the 1891-O is now worth \$85 and is projected by experts in only 10 years to be worth approximately \$1000! Even more startling is the fact that only 10 years ago this coin could be bought for \$7-\$10! This is a proven fact and documented in records of American History.

CONGRESS MELTDOWNS
CREATE SHORTAGE

These beautiful pieces of American History were created by the millions at the United States Mint over a century ago. Although when one studies U. S. History it becomes obvious why these treasured relics are so rare today. In 1918 during WWI, Congress authorized the melting down of 350,000,000 (350 million!) silver dollars, after this regrettable event the value and scarcity of these coins increased dramatically. Also in 1980 when silver exploded to \$50.00 per ounce, the private sector melted down millions more U. S. silver dollars leaving a decimated and widely scattered supply. Our staff of experts at the U. S. Coin Reserve has estimated that only 1% of the original mintage of uncirculated coins still exist. Most of these are not for sale but are being held by large investors until they are worth at least \$1000 each. Remember that this treasured, historical silver represents some of this great nation's most illustrious periods in history, the frontier of The Wild West including the silver mines of Carson City, Nevada, Jesse James and rough stage coach travel, Henry Ford and the newfangled Model-T and lastly the Roaring 20's and the beginning of American Jazz Music. This is a once in a lifetime opportunity to invest in a piece of this country's most valuable resource, the UNITED STATES GOVERNMENT HISTORICAL SILVER DOLLARS.

GREENBACKS OBSOLETE?

Also the U. S. Treasury in an effort to stop counterfeiting of paper money is considering changing the design & color of our present paper money. This factor along with the astronomical Government Federal Deficit create the perfect opportunity to invest in "Hard Silver Money". The offering of this famous Last Known Hoard may represent the final opportunity for anyone to invest in this priceless Government Silver. Following the normal economic formula for supply and demand the U. S. Coin Reserve (Verret Rare Coin Analysts) projects that these U. S. Silver Dollars will easily be worth \$1000 each in just 5 years time. This is an appreciation rate of almost 100% yearly!

STRICT LIMIT

Since our price of \$38.90 each is an incredible one half of our full market value, we expect an avalanche of orders to come pouring in. Therefore, we advise you to get your order in early before the strictly limited supply at this price is sold. We offer a 4 day examination period for each order; orders returned within that time will receive a full refund. A limit of two hundred coins per order will be strictly adhered to! So, avoid disappointment. Act now!

REASONS TO BUY NOW

1. THE NEW YEARS INVESTMENT OF A LIFETIME.
2. National and World Economists state that Historical Gov't Silver is one of the world's best investments.
3. Based on the estimated 1% remaining coins only one family out of 125 can own any of these priceless U. S. Silver Dollars.
4. Rare coin analysts state that these Gem Gov't Silver Dollars could be worth \$1000 each in only 5 years.
5. Gov't Silver coins, with permanent collector value are considered by many experts to be a much better investment than silver bullion with no collector value.
6. Each coin is U. S. Mint fresh and in a special airtight cache.
7. IN OUR OPINION, THESE COINS HAVE ONLY BEEN HANDLED BY BANKERS AND MINT PERSONNEL.
8. A LIMIT OF TWO HUNDRED COINS PER ORDER WILL STRICTLY BE ADHERED TO! SO, AVOID DISAPPOINTMENT ACT NOW!

People living alone...and liking it

Increasing numbers of Americans are living alone and liking it, a University of Michigan study indicates.

Many observers predicted that changing lifestyles during the last four decades would cause people who live alone to become socially isolated and suffer from health problems.

Not so, says U-M sociologist Duane F. Alwin, who found that people living alone are not necessarily isolated. They sometimes have more active social lives than married couples.

However, single parents, the study revealed, are the one group most likely to experience the stress of isolation and life minus an adult companion. Others without the responsibility of children at home seem to have adapted well.

Alwin, Philip E. Converse and Steven Martin of the U-M Institute for Social Research (ISR) examined data from a national sample of more than 3,600 Americans.

They found that while living arrangements can influence psychological states, there is little evidence that individuals living alone are more likely to suffer distress than those living with others.

Statistics on changing American lifestyles reflect some of the dramatic changes examined in the U-M study:

In 1940, fewer than 8 percent of all U.S. households were composed of persons living alone. By 1980 the figure had almost tripled, rising to 23 percent.

The proportion of family households (households with children present) headed by single parents increased by only 4 percent in the 20-year period from 1950 to 1970. In a

for much of the rise in numbers of single-parent households, but some of it can also be attributed to the increasing numbers of never-married women with children who head their own households."

Conventional wisdom is sociology holds that individuals in society depend upon close primary relations and feelings of solidarity with other

"Rather than experiencing social isolation many people who live alone show signs of a 'compensation factor' . . ."

Duane F. Alvin

single decade, 1970-1980, it jumped more than 8 percent to 19.5 percent of all family households.

The average marriage age is rising, income has increased substantially, and fewer unmarried adults choose to remain in their parents' homes," Alwin explains. "In addition, women, who have always tended to outlive men, are now living even longer, and the rising affluence seen in the general population means many more women who have been widowed are financially able to maintain their own households.

"Increasing rates of marital separation and divorce account

people. About two-thirds of the population at any time are in married couple arrangements and such persons typically report higher levels of well-being than do unmarried people, although the addition of children tends to lower couples' happiness ratings somewhat.

Many of the remaining one-third are living alone or in single-parent situations, and Alwin and Converse investigated whether the apparently lower morale among unmarried people could be explained by their supposed social isolation. They looked at unmarried people in various living arrangements to see if there were significant differences in social contact and

overall well-being.

The true "social isolates" tend to be women (either never married, separated, or divorced) who are single parents raising children, the researchers report.

"Even though their circumstances of living bring them into contact with neighbors and relatives, their lives appear to be severely restricted in terms of opportunities for much social contact with friends." These women have limited ability to get away from the kids and develop friendship networks.

Divorced women, accustomed to companionship, frequently reported feelings of loneliness. This type of situation, Alwin adds, "suggests potential negative effects on their children as well." Alwin notes that demographers predict that as many as 50 percent of American children will experience life in a single-parent household at some point during their childhood.

Despite these negative aspects of living alone, other findings of the ISR study contradict many previous assumptions.

Rather than experiencing social isolation, Alwin reports, many people who live alone show signs of a "compensation" factor: they have many more contacts outside the household than do people who

live with others.

He concludes that there are many ways to achieve healthy levels of social integration and

that, given economic independence, "perhaps people equally value the option of privacy afforded by living alone."

Outstanding recognition

Three Western Wayne County women have been selected as recipients of the Outstanding Women of America Award.

Call in the clowns

Scottie Johnson (left) gives Mike McComble a lift much to the surprise of Lana Vail in the three-act comedy "Curtain Going Up," which will be presented by Cherry Hill High School performers at 8 p.m. Friday and Saturday at the school auditorium, 28500 Avondale in Inkster. Tickets are \$2.

Symphony concert set

The Theatre Guild of Livonia-Redford will present two one-act plays, The Chinese and Dr. Fish, at 8 p.m. Friday and Saturday and May 3 and 4 at the Guild Playhouse, 15138 Beech Daly, south of Five Mile.

The Chinese deals with a young Caucasian man who invites his fiancee to meet his family without telling her that

they are Chinese. Dr. Fish is a sex expert with a doctorate in American history who counsels a middle-aged couple seeking a more meaningful sex life.

Both comedies were written by Murray Schisgal. Tickets are priced at \$6 and reservations are recommended (call 522-8057).

Boat show slated

The first annual Western Wayne County Boat Show will be held from noon to 8 p.m. Saturday and Sunday in downtown Plymouth under the city's new parking deck. Admission is free.

Sponsored by the Plymouth Kiwanis Club, the show will cover all aspects of boating, windsurfing, water skiing,

fishing, sailing and power boating. Among the dealers displaying boats will be Bernie's Marina of Westland and Marine Affiliates of Canton.

Bernie's tournament bass fishing team will be among the features and the U.S. Coast Guard auxiliary flotilla officers will explain educational programs held locally.

Woody Allen's God

Comedy appeals to distinct tastes

By RUSS OGDEN
Special to ANP

Playwright Woody Allen lambasts the audience with 45 minutes of dark, terse treatises about human problems in a mixed up world and; at the same time (mostly in a comedic, fast-paced manner) comments about the foibles of the human race. . . . all done in a one-act play: GOD!

In a frenzied short rehearsal time, The Spotlight Players valiantly attempt to reach a professional pinnacle with this Allenesque circus at the John Glenn High School auditorium and occasionally succeed in their energetic aping of Allen's free flowing thoughts.

According to a Spotlight spokesperson, JESUS CHRIST SUPERSTAR was the spring musical choice, but auditions failed to uncover enough singing talent, thereby forcing the change in dramatic menu. And, with a wry grin the spokesperson stated, "Where would we go after offering JESUS for the main course? Our only logical alternative was GOD" . . . with Woody Allen's special perception thrown in for good measure.

GOD (as a deliverer of messages) operates on two levels. Great philosophical thoughts are the undercurrent beneath the "every day observations of the human race stated in biting, fun-type comedic formay." Where else would you find GOD with the name of Bursitis, and his fellow cohorts with names such as Trichinosis, Diabetes, Hepatitis, and Fates?

Standing before a simple but effectively simulated amphitheatre, evidenced by four Grecian Doric columns, an author (Hepatitis) and an actor (Diabetes) are ostensibly arguing about writing a play. Not any play, the author adamantly wants it known, but an award winning drama (a Tony, maybe) so terrific that he will become immortal.

The actor counters with the philosophical observation to the author: You must have an ending before a beginning, in

order to write an intelligent piece of prose. Thus the author and actor, attired in Grecian togas of white and a Greek mini-toga, from the calendar age of 500 B.C., confront themselves with this project.

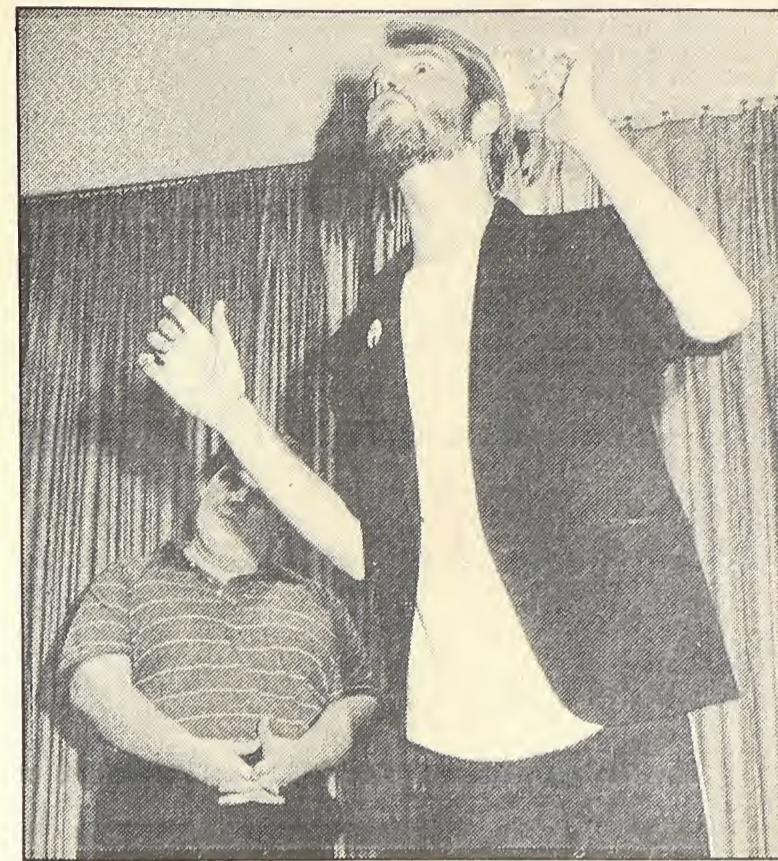

Allen's comedy proceeds from this interchange with the cerebral premise: "If God is dead, then there is no beginning. . . . then nothing exists."

In this play within a play (pre Christ) with God's schedules arrival providing the author of the play with a climactic ending, the author's writing is halted when God arrives on a faulty piece of equipment and abruptly dies upon arrival. Thus. . . . the ending of the proposed play on stage and the ending of the play we (the audience) are observing has thrown us into a thinking maelstrom because, without God, there is no beginning. And the stage spotlight dims toward a subtle end as the author and actor continue their unanswered debate: no end, no beginning.

Hectic and burlesque type appearances and actions dot the 45 minutes of hit and miss action. Sporadically sparsely with current happenings, the play is interrupted by a phone call (ala Allen) telling the two of them to get on with the story. As the two work on the plot, certain members of the audience, who are all figments of the author's imagination, enter into Allen's free flowing thought process.

With these invitations from the stage to members of the audience (prearranged), the cast fleshens out and the author tosses darts at our mores while offering casual comments about our "absurd way of life," including the Woody Allen predisposition (or is it just interest in?) toward sex.

The company for GOD is composed of nine-member Greek chorus plus 22 speaking parts in this "humor in the round" production. To see Annette Aben instantly characterize Blanch du Bois in true Allenesque in a matter of seconds is not to be missed. Bob Walker's Trichinosis is absolutely "in character" from his first appearance to

Russ Holderness emphatically makes a point as a bewildered Daniel Booth looks on.

his final one. . . . a brilliant piece of Thespian endeavor.

Lorraine Parent and Benjamin L. Kemp, Jr., and their costuming as the American tourists leave absolutely no room for anybody else with their cleverly manipulated hamming of Allen's superb script. An energetic Greek chorus adds to the on-stage action, and John Talaska as the "short order car hop and Greek Guard" lends hilarious humor to this burlesque section of the play.

Scenery by Swain is colorful and deserves plaudits as do the total costuming efforts including the white togas of the Greek chorus with their pastel colors thrown into many individual sashes.

Fans of Woody Allen will enjoy the play itself, however, it is doubtful than any new Allen

fans will be gained from this production. The lack of a large audience from which the cast could play would indeed cause some sputtering.

Allen's provincial New York references, of which some members of the audience might be completely unaware, does not help. Top notch burlesque and certainly Woody Allen comedy takes experienced, knowledgeable actors. Immaturity and youth and perhaps the lack of rehearsal time, may have worked against some of the leading actors to adequately "become Allen caricatures."

Performances continue at the John Glenn High School at 8 p.m. Friday and Saturday.

Russ Ogden is a free lance drama critic and professor at Eastern Michigan University.

ship and shore

Edward F. Mikrut entered the United States Air Force April 2, according to Staff Sergeant Gary Strickland, Air Force Recruiter at 23400 Michigan Avenue, Dearborn.

Upon graduation from the six-week basic military training at Lackland Air Force Base, Texas, he will receive technical training in the general aptitude area and be assigned to an Air Force duty station.

Mikrut, a 1976 graduate of John Glen High School, resides on Smith Road, Romulus, with his wife, Valerie.

Army Spec. 4 Chester A. Idol, son of Elizabeth Idol of Matts Drive, Romulus, has arrived for duty in Neu Ulm, West Germany.

Idol, a vehicle driver with the

56th Field Artillery Brigade, was previously assigned at Fort Knox, Kentucky.

He is a 1977 graduate of Trenton High School.

Michael J. Cooke, son of William F. and June Cooke of Waltz Road, New Boston, has been promoted in the U.S. Air

'Say No!'

Take 32 fourth and fifth graders, give them the facts about how drugs can hurt their bodies and even end their lives, and watch them go into action. That is just what happened in room one at Hyatt School when one teacher's homeroom participated in the Drug Free Program sponsored by Nancy Reagan. All the students earned a Certificate of Heroism, indicating that they have completed the Program and signed the declaration to Stay Drug Free and to help others do so, too. All signatures were witnessed by a parent or an adult. That was just the beginning for two students from room one, Larry Cole and Keith Wallace, were motivated to write a play. "Say No!" was performed for many of the classes at Hyatt. For some of the performances two sixth graders, Terry Sands and Danny Rice, contributed facts on the harmful effects of certain drugs and how to safely handle prescription drugs. By working together, these students were able to inform others of the Drug Awareness Campaign. Many of the students wrote letters to Mrs. Reagan thanking her for this worthwhile program and explaining to her how they plan to stay Drug Free by "Saying No!" to drugs. Participating in the play were Sarah Dean (from left), Patricia Cox, Jonnie Castle, Heather Santos and Jeremy Sexton.

To pay or not to pay

Tax protestor loses 'battle' with Uncle Sam

By SUE McDONALD
ANP News Editor

A Westland man's protest over paying federal income tax could end up costing him more than \$30,000 in fines and being sentenced to 15 years in prison.

Aldi C. Fuhrmann, 56, was found guilty of three counts of filing false claims for federal income tax returns in U.S. District Court April 8. The false claims, according to the U.S. Attorney's Office, totaled more than \$16,000 and were made through the filing of altered 1040 forms for 1979, 1980 and 1981.

According to Assistant U.S. Attorney John Thompson Jr., the Fuhrmann case was the first case of a tax protestor, charged with filing altered forms prosecuted in the Eastern District of Michigan and

one of the first such cases prosecuted nationwide.

The forms filed by Fuhrmann, Thompson explained, included several alterations in wording, done in a manner "to make the type appear as normal as possible."

Paragraphs pertaining to income had that word altered to say gain, and in one section of the form for listing income was altered to say receipts. The section for adjustments to income was also altered to say adjustments to receipts, Thompson pointed out.

In two of the years in question, Line 24-moving expenses-was changed to non-taxable receipts and Line 25-employee business expense-contained the notation of Eisner vs. Mocumber, a 1917 Supreme Court decision, which Thompson called a new wrinkle in the income tax protest movement.

Protestors contend that their wages and salaries by virtue of the decision are not income, but rather receipts. In Fuhrmann's case, his wages and salary were claimed as non-taxable receipts, negating the income portion of the return and putting him in a zero tax bracket and in line for a tax refund.

Fuhrman filed his 1979 return in April 1981 and just a few days later his 1980 return. The 1981 return was filed prior to the April 15, 1982, filing deadline.

Fuhrmann, a salaried employee at General Motors' Livonia Fisher Body Plant, listed his income in 1979 as \$23,985 and interest income as \$493. Thompson said that Fuhrmann's method of calculating his tax liability on the altered form, reduced it to the point that he was entitled to receive a

tax refund of the \$4,717.90 withheld from his wages, when in reality his true tax liability was \$6,617.

He received the more than \$4,000 refund for 1979, however, his claimed refund for 1980 was held up, when the alterations to the tax form were discovered. In that year Fuhrmann, according to Thompson, had an income of \$27,304.77, with an interest income of \$3,991, which he properly reported. However, the tax liability for the latter amount was only \$183 and Fuhrmann claimed a refund of \$5,517 of the \$5,700 withheld from his salary. His true tax liability, according to Thompson, was \$9,998 and in actuality he owed an additional \$4,297 in taxes.

Thompson noted that Fuhrmann changed his method of reporting interest income in

1981, recording it as a non-taxable receipt. His salary totaled \$28,448, with interest income of \$6,550 and dividends of \$363, bringing it up to \$35,162. Fuhrmann was entitled to a \$2,000 deduction for interest and dividends, but did not take it and claimed the \$6,031 withheld from his salary as a refund, when he, in fact, owed the Internal Revenue Service an additional \$5,910.

The case was referred to the U.S. Attorney in 1982 for criminal prosecution.

This isn't Fuhrmann's first brush with the federal courts. In 1979 he was convicted of willful failure to file federal income tax returns for 1975 and 1976. He was sentenced to two years probation and fined \$2,000.

According to Thompson, Fuhrmann's tax protests began in 1975, when he filed a re-

turn with just "impossible" written across it. The 1976 return had the fourth and fifth amendments and some other words scrawled on it. Neither form contained pertinent information to determine his tax liability.

The federal jury took about 1 1/2 hours to reach a guilty verdict in the case, and according to Thompson, he will ask Federal Judge Robert DeMasic to "throw the book at him," when he is sentenced at a yet to be scheduled court date. Thompson, however, said he would be surprised if Fuhrmann received the maximum punishment-five years imprisonment and a \$10,000 fine for each count--"but then again I'd be surprised if he got probation."

He believes Fuhrmann will receive some prison time, possibly 1 1/2 years.

FREQUENT FLYER HAS PROBLEMS FLYING FREQUENTLY!!!

Dear Letter Writer:

We had a terrible experience with the airlines. Could you write a letter and help us straighten this situation out.

Sincerely, JLV

Dear Airlines Director:

Back in February of 1982, we wrote a letter to you requesting a comprehensive explanation as to how the Frequent Flight Bonus Program worked. We had, prior to writing the letter, called the "toll free" number and were unable to secure adequate answers. Six months later, in August of 1982, we received a reply from you which

was terribly tardy and totally irrelevant as we had already left for Australia. It is important to note that the response letter was insulting, intimidating and attacked our intelligence.

This 1982 flight was booked through the Wayne, Michigan office of a travel agent. We did this as the travel agent assured us that in order to become a participant in the FFB program, we only needed to fly using your credit card. This would guarantee our enrollment. There were less expensive and more convenient flights available, however, we chose your airlines in order to become members of the FFB.

August 6, 1983, we again traveled to Australia. The following is an attempt to succinctly explain to you what we experienced.

We wanted to go to Brisbane. The travel agent booked us into Brisbane, but did not inform us that the flight stopped in Carns. Because of this inefficiency we spent a substantial amount of additional money as another airline was, at the time, running a special fare of \$599 return from California to Carns. We were on that exact flight, but we paid \$1,000 more. Lastly, we wanted to go to New Zealand, however, not from the U.S. The agent informed us that the other airlines did not

leave from New Zealand was to go from the U.S. to New Zealand and then to Brisbane. Trusting in this knowledge, we secured a ticket written on that manner.

After returning home from the travel agent's office that day, we called the other airline and were told that we could go to Brisbane, then go to New Zealand and back to Brisbane which was exactly what we wanted to do. This would make the trip perfect for us. We, again returned to the agent's office and asked for the first ticket to be voided and a second written the way the other airline informed us it could be done. The agent was reluctant

and called the other airline. After this conversation, she informed us that we could not fly that way; she suggested the best course of action would be to go to the airline office when we got to Brisbane, indicating that the fare may be less in Brisbane.

Thus, when we arrived in Brisbane, we promptly went to the other airline office to inquire about going to New Zealand. We were told that our travel agent had misinformed us and should have issued the ticket in the U.S. which would not have resulted in an extra charge. The ticket should have read Detroit-San Francisco-Hawaii-Brisbane and then an open-ended ticket reading New Zealand-Brisbane-Los Angeles-Detroit. Had we changed our minds about going to New Zealand, there would have been no cost to us. We then called the other airline and were informed that there was nothing they could do to help us as our agent had caused the problem. The attitude that the airline personnel exhibited was extremely bureaucratic, inconsiderate and not helpful.

We wanted to go to New Zealand to add up more miles on

the FFB program and, at the same time, visit friends. We were instead prevented from getting those miles by a number of rude and uncaring people. Our trip was ruined and we paid heavily for it.

We travel to Australia to visit my elderly parents. We are not wealthy people and traveling is a financial burden to us. In short, we have to look for "values" as we travel as do most people.

Why is it so difficult to get proper information regarding "specials" that are being run by various airlines? Can we please get some help in our situation? The next time we fly, it would be a pleasure to feel as though we were being treated with fairness and equity and not capriciously and arbitrarily discriminated against.

Sincerely, JLV

RESOLUTION: This letter was mailed in December of 1984. In April of 1985, Mr. and Mrs. JLV received notification from the original airlines that their tickets would be paid for entirely by the airlines. Interestingly, it took more than four months for the airlines to respond, however, the ultimate news was good.

dan's dogs

by dan a. morris

Dan Morris Copyright 1985

Editor's Note: Dan Morris has been a professional dog trainer for more than 20 years and has worked in all phases of dog training. If you have a specific problem, his advice is available by writing him care of Associated Newspapers, P.O. Box 578, Wayne, Michigan 48184. He will reply in this column.

We purchase a dog for several reasons. One reason is companionship, another if you have children, is to give them the responsibility of caring for a living creature and to encourage love for that animal.

When our dog grows old, or we lose it through an unforeseen accident or illness, we are faced with the decision of how to dispose of our animal with dignity? Probably, the most humane and dignified approach would be to bury the animal in a pet cemetery. In the past, the practice was to dispose of the animal in our own backyard, but now city ordinances prevent that practice.

In a Downriver community lies one of the largest pet cemeteries in the United States. As a matter of fact, it is the third largest. Looking on the cemetery grounds, the owner of A.A.A. Cemetery in Taylor has buried more than 10,000 animals -- from birds to the largest breed of dog. Each lot is well manicured and, to quote owner

Bright Idea

New Japanese 'Super Pill' Insures Rapid Weight-Loss

No Dieting — Eat All You Want,
Pill Does All The Work

BEVERLY HILLS, CA — An exciting new "all natural" weight-loss "Super" Pill developed by the JMA (Japanese Medical Association) has just been approved for distribution in the United States. Reportedly, it can guarantee that you will lose more than a pound a day without dieting, from the very first day until you reach your ideal weight and figure. News of this "Super Pill" is literally sweeping the country. It's called Amitol and there has never been anything quite like it before.

**"Flushes Calories Right Out
Of Your Body"**

What makes Amitol so thrilling and unique is its reported ability to flush calories right out of your body. Amitol is completely safe, it contains no drugs whatsoever. Its ingredients are derived solely from the Konjac root which grows primarily in Northern Japan.

Why the Konjac root? It has been used in Japan for over 1600 years to produce rapid and natural weight-loss!

Japanese studies verify that Konjac root actually prevents fat producing calories from being absorbed into your system. They say it does this by surrounding much of the fats, proteins and carbohydrates you have eaten with a protective viscous coating which is then gently flushed out of your system. And according to Japanese research this produces absolutely amazing results.

And who can disagree! Amitol (although brand new to this country) is

already being called by many people, "the most exciting weight-loss breakthrough of the century." In fact, everywhere there are reports of easy and fast weight-loss from formerly overweight people (in all walks of life) who are now slim, trim, and attractive again.

Company Offers Extraordinary Guarantee

You now can purchase Amitol direct from the North American distributor, and it comes with an extraordinary guarantee.

If you place your order now and then follow the simple instructions for a period of 30 days, you must be completely satisfied with the dramatic visible results or just return the empty container and Dyna Labs will immediately send back your entire purchase price. This guarantee applies regardless of your age or current weight level. What could be better than that! It's just that simple. If you've tried to lose weight before and failed you no longer have an excuse. Amitol is available, it's easy and it works without dieting!

\$19.95—30 day supply, or \$35.95—60 day supply. Order immediately by sending a check or money order to DYNA LABS, 270 No. Canon Dr., Ste. 1255 (Dept. U-21) Beverly Hills, CA, 90210. (Enclose your return address). Credit card holders can order by simply dialing toll free: (1-800-367-2400) 24 hrs a day, 7 days a week. Either way your order will be promptly sent. Please don't wait.

Thanks . . .

Words fail to express my thanks to staff, friends, customers and students of

KEYBOARD WORLD

for their support. Special thanks to Bill Garrett, Holly McLaughlin, Pat Campbell, Tony & Tony and the fire depts. for their efforts on our behalf.

Girl Scout Leader's Day

April 22 was Girl Scout Leader's Day.

On that day members of the Huron Valley Girl Scout Council said thank you to the people who make Girl Scouting happen—the leaders and assistant leaders.

In honor of the day, more than 1,200 leaders and assistant leaders in the council were presented a specially designed bumper sticker as a way to say "thanks for helping."

As part of the Leader Day celebration, 16 volunteers were selected to attend Girl Scouts of the USA trainings at its national conference center in New York. The Council paid part of the cost for leaders to attend these trainings. Sue Dulmaga, Terry Latimer, Wilma Littleton and Nancy Stout, all of Belleville, will attend Pup-
petry.

The Huron Valley Girl Scout Council, a United Way Agency, serves four counties in Michigan: Living-

ston, Monroe, Wash-
tenaw and part of Wayne.

Free trees available

The National Arbor Day Foundation is giving 10 free Colorado Blue Spruce trees to people who become Foundation members during April, 1985.

The free trees are part of the nonprofit foundation's effort to encourage tree planting for conservation and beautification throughout America.

CHARTER TOWNSHIP OF VAN BUREN PUBLIC NOTICE RAISING OF BELLEVILLE LAKE

Please be advised that the Charter Township of Van Buren will begin raising Belleville Lake to its normal summer level on April 26, 1985 and the lake should be up to summer level by May 1, 1985. If an extreme amount of rain is expected and the ground water and drainage problems have not subsided, the schedule may vary slightly.

Delphine Dudick, Clerk

Charter Township of Van Buren

Publish: April 24, 1985

CITY OF BELLEVILLE COUNCIL MINUTES APRIL 15, 1985 REGULAR MEETING

A regular meeting of the City Council for the City of Belleville, County of Wayne, and State of Michigan, was called to order at 7:30 p.m. by Mayor Tontalo, with Councilmembers Carlson, Niemann, Sheldon and Wertz present.

Also present: B. Ward Smith, Willard Dockter, Tom Mooradian, William Gay, Lee Miller, John & Donna Otto, John Hoops, Park Gregory, Jerry Paulus, Jay & Kae Hartford, Michael Colletta, Philip and Pamela Brigand, David Hamilton, Kathy Adair, Joyce Pasarella, Ted E. Hooten, Sarah Mason, Phil Cackley.

Motion by Carlson, supported by Sheldon, to approve Council minutes of April 1.

Motion carried Unanimously.

Motion by Wertz, supported by Carlson, to authorize Supt. Talaga meet with Van Buren School representative regarding facility for salt storage.

Motion carried unanimously.

Motion by Carlson, supported by Wertz, to receive Treasurer's Report for March.

Motion carried unanimously.

Motion by Sheldon, supported by Carlson, to receive Fire Report for March.

Motion carried unanimously.

Motion by Carlson, supported by Wertz, to receive Police Report for March.

Motion carried unanimously.

Motion by Wertz, supported by Carlson, to accept, with regrets, the resignation of John Otto from the Planning Commission and send letter of appreciation.

Motion carried unanimously.

Motion by Carlson, supported by Wertz, to receive Police Report for March.

Motion carried unanimously.

Motion by Wertz, supported by Carlson, to amend General Fund budget and authorize repairs to Library in amount of \$3,327.00.

Motion carried unanimously.

Motion by Wertz, supported by Carlson, to postpone action for attendance at Municipal Conference in Washington, D.C. until further information received.

Motion carried unanimously.

Mayor Tontalo proclaimed April 24, 1985 as Federation Day to recognize the efforts of the General Federation of Women's Clubs and proclaimed May 5-11 as Small Business Week.

Motion by Wertz, supported by Niemann, to authorize Chief Dockter participate in Marine Advisory Task Force with the Sheriff's Department.

Motion carried unanimously.

Block Grant hearing was declared open at 8:00 p.m. to receive citizen input for use of Community Development Block Grant Funds.

David Hamilton, John Otto, Lee Miller, Mr. & Mrs. Hartford, and Ted Hooten spoke of hiring a professional consultant to oversee the development of the downtown business area. Michael Colletta asked for consideration of eight tennis courts at \$15,000 per court. Van Buren Schools will furnish the property and maintenance.

Park Gregory requested curbing at Victory Park and funds for park development as in prior years. Sarah Mason suggested the sewer system in the city be improved. John Hoops would like the alley drainage improved from Wabash Street to the railroad, approximate cost of \$20,000. Mr. & Mrs. Brigand also stated the need to attract business into the city.

Belleville Fire Department submitted request for \$7,000 for drainage, insulation and equipment for the fire station.

Telecare Services requested \$3,000 to continue the telephone reinsurance program.

First Step asked for \$1,000 to maintain the spouse abuse program. Romulus Help Center submitted letter requesting \$1,000 for minor home repair and chore services for senior citizens.

There being no one else wishing to be heard, the hearing was closed at 8:45 p.m.

Motion by Carlson, supported by Sheldon, to hold a closed meeting April 16 at 7:00 p.m. for the purpose of discussing status of police contract negotiations.

Motion carried unanimously.

Motion by Wertz, supported by Carlson, to receive Police Department proposed rules and regulations for further study.

Motion carried unanimously.

Motion by Carlson, supported by Sheldon, to direct DPW Superintendent investigate sewer problem at home of Sarah Mason.

selected for this campaign because of their many uses in the home landscape," John Rose now, the foundation's executive director, said. "They lend beauty to their surroundings with their silver blue-green color and compact conical shape. They can be used as individual ornamentals, an energy-saving wind-break, a privacy screen, or as living Christmas trees."

The free trees are part of the nonprofit foundation's effort to encourage tree planting for conservation and beautification throughout America. "Colorado Blue Spruces were

guaranteed to grow, or they will be replaced free of charge. The foundation will give the 10 free trees to members contributing \$10 during April.

To become a member of the Foundation and to receive the free trees, a \$10 membership contribution should be sent to Ten Blue Spruces, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by April 30.

Belleville Study Club meets

Fifteen members and guests were pre-

sent at the Lauren Court home of member Kitty Davies for the March meeting of the GFWC Belleville Area Intermediate Study Club on Wednesday, March 20. The speaker for the evening was Christine Granaderos, clinical dietitian at St. Joe's Hospital, Ypsilanti, who presented a program on Nutritional Needs of Women, in recognition of National Nutrition Month.

Members voted to adopt two additional projects pertaining to The Robbe Farm—Van Buren Township's "hands-on" historical museum. Members will sponsor an "American Gothic" float in the Strawberry Festival Parade and will host a turn-of-the-century old fashioned Country Fair at the Robbe Farm in September. Country Fair Chairman Sharon Polifroni introduced the fair project, with plans calling for

more than 150 displays.

Any persons interested in more information about the meeting were provided by member Joannie Payne.

Belleville Area Intermediate Study Club should contact club president Gloria Gardner at 697-9209.

VAN BUREN PUBLIC SCHOOLS Minutes of the Board of Education REGULAR MEETING

March 11, 1985

The Regular Meeting of the Van Buren Board of Education was held in the Board Room of the Administration Building on Monday, March 11, 1985 at 8:00 p.m.

Members present: Connie Brinkerhoff, Robert Fowler, Barbara Faler, Jere Dolph, and Dolores Temple. Absent: David Wertz. Also present were Director of Personnel Raymond Kohr and Director of Business Affairs Jack Hosmer.

The meeting was called to order at 8:02 p.m. by President Fowler. Letter of resignation from Board Member Cathy Horste for medical reasons, effective immediately, was accepted. Motion by Robert Fowler, supported by Dolores Temple, that Robert Cook be appointed to replace Cathy Horste until June 30, 1985. motion carried unanimously.

Mary Angela Winter presented a Gifted & Talented proposal for the 1985-1986 school year as follows:

- a. Continuation of a cluster concept for grades K-2.
- b. Occasional "pull out" classes in thinking skills, project starters, and affective education for grades K-2 to be taught by gifted coordinator.
- c. Initiating a magnet concept for grades 3-5.

This would be a pilot program to be evaluated at the end of the school year. Motion by Jere Dolph, supported by Dolores Temple, that the matter be referred to the Curriculum Committee for review and recommendation. Motion carried unanimously.

Motion by Barbara Faler, supported by Dolores Temple, that the minutes of the regular meeting of February 11, 1985 and special meeting of March 4, 1985 be approved as printed. Motion carried unanimously.

On recommendation of the Business Office, motion by Connie Brinkerhoff, supported by Jere Dolph, that: Mary Ann Conklin be hired as a part-time community education receptionist/secretary effective February 19, 1985; and

Marilyn Radford, a school bus driver, be terminated effective February 4, 1985.

Motion carried unanimously.

The financial reports for the month were reviewed. Motion by Dolores Temple, supported by Barbara Faler, that the financial reports be approved as printed. Motion Carried unanimously.

The bills for the month of February were reviewed. Motion by Barbara Faler, supported by Dolores Temple, that the bills be paid as presented. Motion carried unanimously.

Motion by Connie Brinkerhoff, supported by Dolores Temple, that the following individuals be hired as paraprofessionals for the High School: Manuellen Law, effective February 12, 1985; and Robert Gorney (1/2 time), effective February 19, 1985. Motion carried unanimously.

Motion by Dolores Temple, supported by Jere Dolph, that the 1984-85 Spring Sports Coaching Assignments be approved as presented. Motion carried unanimously.

Jeffrey Clark and Jack Zelazny from Nordstrom Samson Associates were present and discussed the auditorium roof bid specifications. They suggested that repair of the intermediate roof be bid as an alternate. They also suggested that insulation specification be changed from R30 to R25 factor which would represent a substantial cost savings. Timetable suggested would be to have all bids in by Friday, March 22 and bid awarded at the special meeting scheduled for Monday, March 25, 1985. Motion by Connie Brinkerhoff, supported by Robert Cook, to change insulation from R30 to R21-R25 (no higher than 25 and no lower than 21). Motion carried unanimously.

Motion by Dolores Temple, supported by Barbara Faler, that specifications be put out for bid with alternate. Motion carried unanimously.

Jack Hosmer presented a request to enter into an agreement with Comerica Bank to establish a Pooled Investment Fund. William Reel, Assistant Vice President Municipalities Division, Comerica was present to answer questions. Motion by Connie Brinkerhoff, supported by Robert Cook, to move into Pooled Investment Fund with Comerica as presented. Motion carried unanimously.

Motion by Dolores Temple, supported by Connie Brinkerhoff, to post South Middle School Principal position. Motion carried unanimously. Dolores Temple was appointed to serve on the selection committee.

Amendment to General Transportation Policy ED was presented for review and to be put on the agenda at the next meeting for approval. Request was presented that 50¢ per student head count per building be allocated for field trips for the remainder of the 1984-85 school year. Motion by Dolores Temple, supported by Barbara Faler, that field trip funds be allocated as presented for the remainder of the current school year. Motion carried unanimously.

Motion by Barbara Faler, supported by Jere Dolph, that the regular meeting for April be changed from April 8 to April 15, 1985 and that the special meeting be changed from April 22 to April 29, 1985. Motion carried unanimously.

Motion by Robert Fowler, supported by Dolores Temple, to relax moratorium on purchase of classroom computers while waiting for

A Special Meeting of the Van Buren Board of Education was held in the Multi-purpose Room at Haggerty Elementary School on Monday, March 25, 1985 at 7:30 p.m.

Members present: David Wertz, Dolores Temple, Jere Dolph, Robert Fowler, Connie

Smith opinion on PCHA sale criticized by Gremore

By SUE McDONALD
ANP News Editor

A legal opinion by B. Ward Smith, attorney for the Peoples Community Hospital Authority (PCHA) isn't setting well with one individual, who is attempting to engineer the sale of the authority's five hospitals to the Hospital Corporation of America (HCA).

Kenneth Gremore, former executive director of the PCHA and currently a consultant for HCA, is skeptical of the opinion, which, in short, rejects the idea of dissolving the authority through the sale of its assets.

According to Smith, there is no basis in Public Act 47 of 1947 or case law which gives the PCHA Board of Directors the authority to dissolve the authority, although the act, which permitted the formation of the authority, could be amended by the State Legislature to provide for such a dissolution and the distribution of its funds.

Smith also wrote that the authority's board of directors could not dispose of all of the assets of the authority, since as a result of 1966 court ruling such a sale would require a petition to the Ingham County Circuit Court, which retained jurisdiction in the case, with notice to the attorney general, for an apparent determination as to the validity of any such attempted action.

"They could easily pay off those bonds, but they won't so they can keep their hooks into those communities to get the assessment."

-Kenneth Gremore

That stipulated judgement, which stemmed from a plan allegedly to transfer the property of the authority to a non-profit corporation organized for the purpose of owning, maintaining and operating a public hospital, according to Smith, enjoined the authority from "acting or permitting any acts toward transfer of assets of the authority, which are in conflict with its statutory grant of public franchise or its contractual obligations arising out of its bonded indebtedness."

Smith in his opinion noted that legislative action to amend the authority's enabling act could violate the state's constitution, which states that "no...law impairing the obligation of contract shall be enacted."

The attorney pointed out that since the law in effect at the time of the outstanding bonds

4-H offers lamb project

Selecting, raising and showing champion wether is one of approximately 200 learning options young people can participate in during 4-H Exploration Days, June 19-21 at Michigan State University.

"The purpose of 4-H Exploration Days is to give young people a chance to increase their skills and knowledge in a particular subject area," says Mar-

garet Leskosky, Wayne County Extension 4-H Youth Agent.

In this hands-on option, participants will explore the 4-H market lamb project and discover what it takes to purchase a good wether, proper feed techniques and final preparation for the show ring.

"This is an excellent opportunity for youths to become involved with the livestock industry," Leskosky said.

"They will learn not only the financial aspects but also management practices."

The three-day event will host more 4,000 Michigan 4-H members and leaders.

Wayne County young people interested in attending 4-H Exploration Days should contact Bobbi Fairman at the Wayne County Cooperative Extension Service Office or call 721-6576.

3 Romulus students attend Girls' State

Three outstanding Romulus Senior High School Students have been selected to attend the 45th annual American Legion Auxiliary Girls State

is designed as a practical experience in the problems of self-government as operated within the state of Michigan. The purpose of the program is

"The purpose of the program is to emphasize the importance of government in modern life . . ."

Program. The program will be held on the campus of Central Michigan University in Mt. Pleasant from June 8 through June 16.

There will be 504 girls there, representing the very best of Michigan Youth.

The three Romulus recipients this year have received scholarships valued at \$150. The winners are Linda Cousino, daughter of Lynn and Maria Cousino, sponsored by the Romulus Progressive Club; Jennifer Harriff, daughter of Clifton and Carol Harriff, sponsored by the Romulus Rotary Club; and Amy Vavro, daughter of Robert and Katherine Vavro, sponsored by the Romulus Kiwanis Club.

All are completing the 11th grade at Romulus Senior High School. Thus, they will be returning as seniors to share their many experiences with their classmates next year.

The 1985 Girls State Program

to emphasize the importance of government in modern life; to stimulate a deep and lasting interest in government; and to enlarge the students understanding of the governmental process.

The girls will actually participate in the political and governmental process. Care has been taken to design the Girls State Program so that every student may participate in the electoral process; have an opportunity to hold public office; and be encouraged to share in the formulation of public policy. Since no one person can serve in all offices of government, it is expected that a great deal will be learned by observation of the activities of others, according to a spokesman.

It is hoped that the citizens will leave Girls State with a mature appreciation of some of the basic strengths and weaknesses of the American system

of government. It is hoped, further, that they will leave with a firm resolution to make government a more effective and responsible servant of the people, he added.

Selection is based on each girls' interest, character and potential abilities. Also considered are teacher recommendations and academic record.

Upon their arrival at Girls State, each girl is assigned to a mythical political party and to a county and city. There are seven counties, each composed of three cities.

The citizens nominate and elect various city, county and state officials. They are instructed in the duties of the various public offices, including the State Supreme Court, the Legislature and other divisions

of government.

The Press Association, lobbyist and interest groups are

also popular activities in a typical Girls State.

Two girls will be selected

Minding their business

Six students from Romulus Senior High School attended the 13th Annual State Convention of the Business and Office Education Clubs in Detroit March 15-17. They were Bernadette Austin, April Andre, Lisa Coon, Lisa Edwards, Dawn Hammons and Kim Papas. They were accompanied by their advisor, Florence Sat-

terlee.

Approximately 2,000 high school office education students from around Michigan attended. These students were chosen to represent their regions after competing and placing at least eighth in the regional level competitions.

Headquarters were at the De-

troit Westin Hotel. Students attended general sessions and competitions in both skill and leadership areas. They also had the opportunities to tour Windsor, Canada, the Detroit Science Center, and Detroit Institute of Arts, and attend workshops and sessions with

prominent speakers.

The BOEC students who attended the conference also participated in the election of state officers. The highlight of the three-day conference was an Awards Session where all contest winners were announced.

Lisa Coon placed seventh in business spelling and proofreading. Dawn Hammons placed third in records management. By placing third, Dawn qualified to compete in the National Office Education Association Conference in Houston, Texas, for a national award. She and her advisor will be attending the conference April 26-30.
